Portfolio overview

Q. What is the Portfolio's investment strategy?

A. The Portfolio seeks capital appreciation. The Portfolio invests primarily in common stocks of companies that we believe are experiencing, or will experience, growth in earnings that exceeds the average rate of earnings growth of the companies which comprise the S&P 500 Indexⁱ. The Portfolio may invest in the securities of large, well-known companies offering prospects of long-term earnings growth. However, because higher earnings growth rates are often achieved by small to medium capitalization companies, a significant portion of the Portfolio's assets may be invested in the securities of such companies. The Portfolio may invest up to 25% of its net assets (at the time of investment) in equity securities of foreign issuers.

We emphasize individual security selection while diversifying the Portfolio's investments across industries, which may help to reduce risk. We focus primarily, but not exclusively, on emerging growth companies that have passed their "start-up" phase and show positive earnings and the prospect of achieving significant profit gains in the two to three years after the Portfolio acquires their stocks. When evaluating an individual company's stock, we consider whether the company may benefit from:

- New technologies, products or services
- New cost reducing measures
- Changes in management
- Favorable changes in government regulations

We utilize our fundamental research analysts who, using their industry expertise, determine the material ESG (environmental, social and governance) factors facing both individual companies and industry sectors and engage with company management regarding the extent to which they promote best practices of such factors. ESG factors may include, but are not necessarily limited to, environmentally friendly product initiatives, labor audits of overseas supply chains and strong corporate governance. The choice of ESG factors for any particular company reflects the specific industry.

Q. What were the overall market conditions during the Portfolio's reporting period?

A. U.S. equities generated positive returns for the twelve-month period ended December 31, 2021, grappling with spikes in volatility amid waves of COVID-19 cases throughout the year. The S&P 500 Index advanced 28.71%. The benchmark Russell 3000 Growth Indexⁱⁱ rose 25.85%, edging out the Russell 1000 Value Indexⁱⁱⁱ, which rose 25.16%. Benchmark returns this reporting period were driven by gains in cyclical¹ sectors such as energy (+53.61%) and financials (+28.34%), which performed well amid a broad economic reopening, real estate (+33.98%), which made up ground lost in 2020, as well as information technology ("IT") (+32.62%) and communication services (+31.35%), which

¹ Cyclical consists of the following sectors: energy, financials, materials and industrials.

Portfolio overview (cont'd)

continued to benefit from strong secular trends. Defensive sectors such as consumer staples (+19.54%) and health care (+14.30%) trailed in a risk-on market.

The distribution of COVID-19 vaccines, passage of large fiscal stimulus packages and highly accommodative monetary policy from the Federal Reserve Board (the "Fed") helped to fuel investor optimism through the first half of the reporting period. As consumers spent their stimulus checks and increased vaccination rates helped roll back many of the COVID-19 prevention measures in place for nearly a year, strong corporate earnings and the prospect of greater economic activity helped push markets to a string of new, all-time highs in the second quarter of 2021. However, headwinds began to emerge in the third quarter of 2021, as the record-setting pace of global growth began to slow.

Markets wavered in September after the Delta variant of COVID-19 put a pause on recovery plays and higher inflation, helped by shortages of goods, manufacturing inputs and labor, coincided with signals from the Fed that it would reduce its bond buying as early as November and potentially raise the federal funds rate in late 2022 or 2023. Equities delivered a flattish third quarter of 2021 as already-challenging labor and supply shortages and broad-based inflationary pressures intensified, weighing on industrials and materials companies. Robust third quarter corporate earnings, however, suggesting companies have largely been able to absorb inflationary pressures, led to strong gains in October. The discovery of the Omicron variant of COVID-19 in late November 2021 reintroduced risks of pandemic-related restrictions, although indications the variant was milder than previous iterations enabled strong market performance to end the year.

Q. How did we respond to these changing market conditions?

A. We took advantage of market volatility throughout the reporting period, using pullbacks to initiate new positions and add to recently established ones. Our objective with disruptors is to purchase companies early in the development of their market opportunity. Recent additions Etsy, CrowdStrike, DocuSign and HubSpot all exemplify disruptive businesses with the potential for significant growth going forward. In addition, we expect to target innovation in the health care sector in areas like life sciences tools and diagnostics through the purchase of 10X Genomics, which provides cutting edge analysis of cells for scientific research, supporting our ownership of cancer testing provider Guardant Health.

The remainder of the portfolio includes existing holdings that we consider cyclical or improving growth companies. We anticipate being more opportunistic around these holdings in the wake of cycle ebbs and flows and we have applied this discipline most recently with the additions of Charles River Laboratories in the health care sector.

The Portfolio continues to apply the same high-conviction, high active share, and relatively low-turnover philosophy to growth investing that we have for decades. We believe the portfolio construction evolution we have been implementing this reporting period, is consistent with the original intent of the Portfolio. Going forward, we expect to be

opportunistic not only among disruptors, but also across our other categories of growth, consistent with our pyramid of growth approach.

The Portfolio performed well in what we view as a more supportive environment for the higher-quality, structurally undervalued growth companies we target even if, after a broadening of equity performance following the initial rollout of vaccines, leadership narrowed again with a sharp drop in bond yields providing a strong bid to the mega cap FAANG (Facebook, Amazon, Apple, Netflix and Alphabet) stocks that are mostly absent from the Portfolio. While we don't plan to increase our exposure in the mega cap segment of the market, we have confidence in the approach to portfolio construction we have outlined and efforts to increase exposure to higher-growth companies in the IT, consumer discretionary, communication services and health care sectors.

Having a balanced approach to portfolio construction should enable us to outperform over the long term regardless of market or economic regime. Furthermore, seeking durable growth businesses with the potential for strong free cash flow that are underrepresented in most portfolios allows us to provide the highly uncorrelated returns that investors have come to expect from the Portfolio.

Performance review

For the twelve months ended December 31, 2021, Class I shares of ClearBridge Variable Aggressive Growth Portfolio² returned 10.30%. The Portfolio's unmanaged benchmark, the Russell 3000 Growth Index, returned 25.85% for the same period. The Lipper Variable Multi-Cap Core Funds Category Average^{iv} returned 23.95% over the same time frame.

Performance Snapshot as of December 31, 2021 (unaudited)		
	6 months	12 months
ClearBridge Variable Aggressive Growth Portfolio:		
Class I	-4.15%	10.30%
Class II	-4.27%	10.04%
Russell 3000 Growth Index	11.66%	25.85%
Lipper Variable Multi-Cap Core Funds Category Average	8.08%	23.95%

The performance shown represents past performance. Past performance is no guarantee of future results and current performance may be higher or lower than the performance shown above. Principal value and investment returns will fluctuate and investors' shares, when redeemed, may be worth more or less than their original cost.

All share class returns assume the reinvestment of all distributions at net asset value and the deduction of all Portfolio expenses. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

² The Portfolio is an underlying investment option of various variable annuity and variable life insurance products. The Portfolio's performance returns do not reflect the deduction of expenses imposed in connection with investing in variable annuity or variable life insurance contracts, such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the performance of the Portfolio. **Past performance is no guarantee of future results.**

Portfolio overview (cont'd)

Portfolio performance figures reflect fee waivers and/or expense reimbursements, without which the performance would have been lower.

Total Annual Operating Expenses (unaudited)

As of the Portfolio's current prospectus dated May 1, 2021, the gross total annual fund operating expense ratios for Class I and Class II shares were 0.80% and 1.05%, respectively.

Actual expenses may be higher. For example, expenses may be higher than those shown if average net assets decrease. Net assets are more likely to decrease and Portfolio expense ratios are more likely to increase when markets are volatile.

Q. What were the leading contributors to performance?

A. On an absolute basis, the Portfolio had positive returns in seven of the eight sectors in which it was invested (among eleven economic sectors in total) during the reporting period. The greatest contributions to returns came from the IT, industrials and health care sectors.

Relative to the benchmark, stock selection in the materials and industrials sectors, an overweight to communication services sector and an underweight to consumer discretionary sector had positive impacts on performance for the reporting period.

In terms of individual Portfolio holdings, leading contributors to performance for the reporting period included positions in Broadcom, Seagate Technology and TE Connectivity in the IT sector, UnitedHealth Group in the health care sector and Johnson Controls International in the industrials sector.

Q. What were the leading detractors from performance?

A. Relative to the benchmark, both the Portfolio's overall stock selection and sector allocation had negative impacts on performance for the reporting period. In particular, stock selection in the communication services, IT and health care sectors, an overweight to health care sector and an underweight to IT sector hurt relative performance.

In terms of individual Portfolio holdings, leading detractors from performance for the reporting period included positions in Twitter in the communication services sector, DocuSign and Citrix Systems in the IT sector, as well as Ionis Pharmaceuticals and Ultragenyx Pharmaceutical in the health care sector.

Q. Were there any significant changes to the Portfolio during the reporting period?

A. Over the course of the reporting period, we established nine new positions, the largest being DocuSign, HubSpot and CrowdStrike Holdings in the IT sector, Match Group in the communication services sector and Charles River Laboratories International in the health care sector.

In an effort to concentrate the Portfolio in our highest conviction ideas with the best long-term growth profiles, we also closed eighteen positions. The largest sales included Amgen in the health care sector as well as Nuance Communications, Citrix Systems, Intel and Mandiant in the IT sector.

Thank you for your investment in the ClearBridge Variable Aggressive Growth Portfolio. As always, we appreciate that you have chosen us to manage your assets, and we remain focused on achieving the Portfolio's investment goals.

Sincerely,

***RISKS:** Equity securities are subject to price and market fluctuations. The Portfolio may invest a significant portion of its assets in small- and mid-cap companies, which may be more volatile than investments in large-cap companies. The Portfolio may focus its investments in certain companies, industries or market sectors, increasing its vulnerability to market volatility. Investing in foreign securities is subject to certain risks not associated with domestic investing, such as currency fluctuations and changes in social, political and economic conditions, which could increase volatility. These risks are magnified in emerging markets. Emerging market countries tend to have economic, political and legal systems that are less developed and are less stable than those of more developed countries. Please see the Portfolio's prospectus for a more complete discussion of these and other risks and the Portfolio's investment strategies.*

- ⁱ The S&P 500 Index is an unmanaged index of the stocks of 500 leading companies, and is generally representative of the performance of larger companies in the U.S.
- ⁱⁱ The Russell 3000 Growth Index measures the performance of the broad growth segment of the U.S. equity universe. It includes those Russell 3000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 3000 Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the U.S. equity market. (A price-to-book ratio is the price of a stock compared to the difference between a company's assets and liabilities.)
- ⁱⁱⁱ The Russell 1000 Value Index measures the performance of the large-cap value segment of the U.S. equity universe. It includes those Russell 1000 Index companies with lower price-to-book ratios and lower expected growth values.
- ^{iv} Lipper, Inc., a wholly-owned subsidiary of Refinitiv, provides independent insight on global collective investments. Returns are based on the period ended December 31, 2021, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 106 funds for the six-month period and among the 104 funds for the twelve-month period in the Portfolio's Lipper category.

† The bar graph above represents the composition of the Portfolio’s investments as of December 31, 2021 and December 31, 2020. The Portfolio is actively managed. As a result, the composition of the Portfolio’s investments is subject to change at any time.

Portfolio expenses (unaudited)

Example

As a shareholder of the Portfolio, you may incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees; service and/or distribution (12b-1) fees; and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other funds.

This example is based on an investment of \$1,000 invested on July 1, 2021 and held for the six months ended December 31, 2021.

Actual expenses

The table below titled “Based on Actual Total Return” provides information about actual account values and actual expenses. You may use the information provided in this table, together with the amount you invested, to estimate the expenses that you paid over the period. To estimate the expenses you paid on your account, divide your ending account value by \$1,000 (for example, an \$8,600 ending account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading entitled “Expenses Paid During the Period”.

Based on actual total return ¹					
	Actual Total Return ²	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During the Period ³
Class I	-4.15%	\$1,000.00	\$958.50	0.86%	\$4.25
Class II	-4.27	1,000.00	957.30	1.08	5.33

Hypothetical example for comparison purposes

The table below titled “Based on Hypothetical Total Return” provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio and an assumed rate of return of 5.00% per year before expenses, which is not the Portfolio’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use the information provided in this table to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare the 5.00% hypothetical example relating to the Portfolio with the 5.00% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table below are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Based on hypothetical total return ¹					
	Hypothetical Annualized Total Return	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During the Period ³
Class I	5.00%	\$1,000.00	\$1,020.87	0.86%	\$4.38
Class II	5.00	1,000.00	1,019.76	1.08	5.50

- ¹ For the six months ended December 31, 2021.
- ² Assumes the reinvestment of all distributions, including returns of capital, if any, at net asset value. Total return is not annualized, as it may not be representative of the total return for the year. Total returns do not reflect expenses associated with separate accounts such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the total returns. Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results.
- ³ Expenses (net of compensating balance arrangements, fee waivers and/or expense reimbursements) are equal to each class' respective annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year (184), then divided by 365.

Portfolio performance (unaudited)

Average annual total returns¹

	Class I	Class II
Twelve Months Ended 12/31/21	10.30%	10.04%
Five Years Ended 12/31/21	11.65	11.38
Ten Years Ended 12/31/21	13.81	13.53

Cumulative total returns¹

Class I (12/31/11 through 12/31/21)	264.51%
Class II (12/31/11 through 12/31/21)	255.61

All figures represent past performance and are not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect expenses associated with separate accounts such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the total returns. Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower.

¹ Assumes the reinvestment of all distributions, including returns of capital, if any, at net asset value.

The hypothetical illustration also assumes a \$10,000 investment in the Russell 3000 Growth Index. The Russell 3000 Growth Index (the "Index") measures the performance of the broad growth segment of the U.S. equity universe. It includes those Russell 3000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Index is unmanaged and is not subject to the same management and trading expenses as a fund. Please note that an investor cannot invest directly in an index. The performance of the Portfolio's other class may be greater or less than the Class I shares' performance indicated on this chart, depending on whether greater or lesser fees were incurred by shareholders investing in the other class.

Notes to financial statements

1. Organization and significant accounting policies

ClearBridge Variable Aggressive Growth Portfolio (the "Portfolio") is a separate diversified investment series of Legg Mason Partners Variable Equity Trust (the "Trust"). The Trust, a Maryland statutory trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company.

Shares of the Portfolio may only be purchased or redeemed through variable annuity contracts and variable life insurance policies offered by the separate accounts of participating insurance companies or through eligible pension or other qualified plans.

The following are significant accounting policies consistently followed by the Portfolio and are in conformity with U.S. generally accepted accounting principles ("GAAP"). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through the date the financial statements were issued.

(a) Investment valuation. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. The valuations for fixed income securities (which may include, but are not limited to, corporate, government, municipal, mortgage-backed, collateralized mortgage obligations and asset-backed securities) and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of valuation techniques and methodologies. The independent third party pricing services typically use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar securities. Investments in open-end funds are valued at the closing net asset value per share of each fund on the day of valuation. When the Portfolio holds securities or other assets that are denominated in a foreign currency, the Portfolio will normally use the currency exchange rates as of 4:00 p.m. (Eastern Time). If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers or at the transaction price if the security has recently been purchased and no value has yet been obtained from a pricing service or pricing broker. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Portfolio calculates its net asset value, the Portfolio values these securities as determined in accordance with procedures approved by the Portfolio's Board of Trustees.

The Board of Trustees is responsible for the valuation process and has delegated the supervision of the daily valuation process to the Global Fund Valuation Committee (known as Legg Mason North Atlantic Fund Valuation Committee prior to March 1, 2021) (the "Valuation Committee"). The Valuation Committee, pursuant to the policies adopted by the Board of Trustees, is responsible for making fair value determinations, evaluating the

effectiveness of the Portfolio's pricing policies, and reporting to the Board of Trustees. When determining the reliability of third party pricing information for investments owned by the Portfolio, the Valuation Committee, among other things, conducts due diligence reviews of pricing vendors, monitors the daily change in prices and reviews transactions among market participants.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer's financial statements; the purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such back testing monthly and fair valuation occurrences are reported to the Board of Trustees quarterly.

The Portfolio uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

GAAP establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

- Level 1 — quoted prices in active markets for identical investments
- Level 2 — other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 — significant unobservable inputs (including the Portfolio's own assumptions in determining the fair value of investments)

The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Notes to financial statements (cont'd)

The following is a summary of the inputs used in valuing the Portfolio's assets carried at fair value:

ASSETS				
Description	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common Stocks†	\$285,479,446	—	—	\$285,479,446
Short-Term Investments†	2,104,420	—	—	2,104,420
Total Investments	\$287,583,866	—	—	\$287,583,866

† See Schedule of Investments for additional detailed categorizations.

(b) Foreign currency translation. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Portfolio does not isolate that portion of the results of operations resulting from fluctuations in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Portfolio's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the values of assets and liabilities, other than investments in securities, on the date of valuation, resulting from changes in exchange rates.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(c) Foreign investment risks. The Portfolio's investments in foreign securities may involve risks not present in domestic investments. Since securities may be denominated in foreign currencies, may require settlement in foreign currencies or may pay interest or dividends in foreign currencies, changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Portfolio. Foreign investments may also subject the Portfolio to foreign government exchange restrictions, expropriation, taxation or other political, social or economic developments, all of which affect the market and/or credit risk of the investments.

(d) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income (including interest income from payment-in-kind securities), adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. Foreign dividend income is recorded on the ex-dividend date or as soon as practicable after the Portfolio determines the existence of a dividend declaration after exercising reasonable due diligence. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults or a credit event occurs that impacts the issuer, the Portfolio may halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default or credit event.

(e) Distributions to shareholders. Distributions from net investment income and distributions of net realized gains, if any, are declared at least annually. Distributions to shareholders of the Portfolio are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

(f) Share class accounting. Investment income, common expenses and realized/unrealized gains (losses) on investments are allocated to the various classes of the Portfolio on the basis of daily net assets of each class. Fees relating to a specific class are charged directly to that share class.

(g) Compensating balance arrangements. The Portfolio has an arrangement with its custodian bank whereby a portion of the custodian's fees is paid indirectly by credits earned on the Portfolio's cash on deposit with the bank.

(h) Federal and other taxes. It is the Portfolio's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986 (the "Code"), as amended, applicable to regulated investment companies. Accordingly, the Portfolio intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal or state income tax provision is required in the Portfolio's financial statements.

Management has analyzed the Portfolio's tax positions taken on income tax returns for all open tax years and has concluded that as of December 31, 2021, no provision for income tax is required in the Portfolio's financial statements. The Portfolio's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

(i) Reclassification. GAAP requires that certain components of net assets be reclassified to reflect permanent differences between financial and tax reporting. These

Notes to financial statements (cont'd)

reclassifications have no effect on net assets or net asset value per share. During the current year, the following reclassifications have been made:

	Total Distributable Earnings (Loss)	Paid-in Capital
(a)	\$(476,536,679)	\$476,536,679

(a) Reclassifications are due to book/tax differences in the treatment of an in-kind distribution of securities.

2. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC ("LMPFA") is the Portfolio's investment manager and ClearBridge Investments, LLC ("ClearBridge") is the Portfolio's subadviser. Western Asset Management Company, LLC ("Western Asset") manages the portion of the Portfolio's cash and short-term instruments allocated to it. LMPFA, ClearBridge and Western Asset are indirect, wholly-owned subsidiaries of Franklin Resources, Inc. ("Franklin Resources").

Under the investment management agreement, the Portfolio pays an investment management fee, calculated daily and paid monthly, in accordance with the following breakpoint schedule:

Average Daily Net Assets	Annual Rate
First \$1 billion	0.750%
Next \$1 billion	0.725
Next \$3 billion	0.700
Next \$5 billion	0.675
Over \$10 billion	0.650

LMPFA provides administrative and certain oversight services to the Portfolio. LMPFA delegates to the subadviser the day-to-day portfolio management of the Portfolio, except for the management of the portion of the Portfolio's cash and short-term instruments allocated to Western Asset. For its services, LMPFA pays ClearBridge a fee monthly, at an annual rate equal to 70% of the net management fee it receives from the Portfolio. For Western Asset's services to the Portfolio, LMPFA pays Western Asset monthly 0.02% of the portion of the Portfolio's average daily net assets that are allocated to Western Asset by LMPFA.

As a result of expense limitation arrangements between the Portfolio and LMPFA, the ratio of total annual fund operating expenses, other than interest, brokerage, taxes, extraordinary expenses and acquired fund fees and expenses, to average net assets of Class I and Class II shares did not exceed 0.90% and 1.15%, respectively. These expense limitation arrangements cannot be terminated prior to December 31, 2023 without the Board of Trustees' consent. In addition, the manager has agreed to waive the Portfolio's management fee to an extent sufficient to offset the net management fee payable in connection with any investment in an affiliated money market fund (the "affiliated money market fund waiver"). The affiliated money market fund waiver is not subject to the recapture provision discussed below.

During the year ended December 31, 2021, fees waived and/or expenses reimbursed amounted to \$68, all of which was an affiliated money market fund waiver.

LMPFA is permitted to recapture amounts waived and/or reimbursed to a class during the same fiscal year if the class' total annual fund operating expenses have fallen to a level below the expense limitation ("expense cap") in effect at the time the fees were earned or the expenses incurred. In no case will LMPFA recapture any amount that would result, on any particular business day of the Portfolio, in the class' total annual fund operating expenses exceeding the expense cap or any other lower limit then in effect.

Franklin Distributors, LLC (known as Legg Mason Investor Services, LLC prior to July 7, 2021) ("Franklin Distributors") serves as the Portfolio's sole and exclusive distributor. Franklin Distributors is an indirect, wholly-owned broker-dealer subsidiary of Franklin Resources.

All officers and one Trustee of the Trust are employees of Franklin Resources or its affiliates and do not receive compensation from the Trust.

3. Investments

During the year ended December 31, 2021, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$ 84,406,355
Sales	146,766,965*

* Excludes value of securities delivered as a result of redemptions in-kind totaling \$630,837,235 (Note 9).

At December 31, 2021, the aggregate cost of investments and the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Securities	\$126,353,234	\$166,913,882	\$(5,683,250)	\$161,230,632

4. Derivative instruments and hedging activities

During the year ended December 31, 2021, the Portfolio did not invest in derivative instruments.

5. Class specific expenses, waivers and/or expense reimbursements

The Portfolio has adopted a Rule 12b-1 shareholder services and distribution plan and under that plan the Portfolio pays service and/or distribution fees with respect to its Class II shares calculated at the annual rate of 0.25% of the average daily net assets of the class. Service and/or distribution fees are accrued daily and paid monthly.

For the year ended December 31, 2021, class specific expenses were as follows:

	Service and/or Distribution Fees	Transfer Agent Fees
Class I	—	\$23,572
Class II	\$486,695	10,752
Total	\$486,695	\$34,324

Notes to financial statements (cont'd)

For the year ended December 31, 2021, waivers and/or expense reimbursements by class were as follows:

	Waivers/Expense Reimbursements

7. Shares of beneficial interest

At December 31, 2021, the Trust had an unlimited number of shares of beneficial interest authorized with a par value of \$0.00001 per share. The Portfolio has the ability to issue multiple classes of shares. Each class of shares represents an identical interest and has the same rights, except that each class bears certain direct expenses, including those specifically related to the distribution of its shares.

Transactions in shares of each class were as follows:

	Year Ended December 31, 2021		Year Ended December 31, 2020

8. Transactions with affiliated company

As defined by the 1940 Act, an affiliated company is one in which the Portfolio owns 5% or more of the outstanding voting securities, or a company which is under common ownership or control with the Portfolio. The following company was considered an affiliated company for all or some portion of the year ended December 31, 2021. The following transactions were effected in such company for the year ended December 31, 2021.

9. Redemptions in-kind

The Portfolio may make payment for Portfolio shares redeemed wholly or in part by distributing portfolio securities to shareholders. For the year ended December 31, 2021, the Portfolio had redemptions in-kind with total proceeds in the amount of \$632,436,375. The net realized gain on these redemptions in-kind amounted to \$476,536,679, which was not realized for tax purposes.

10. Income tax information and distributions to shareholders

The tax character of distributions paid during the fiscal years ended December 31, was as follows:

	2021	2020
Distributions paid from:		
Ordinary income	\$22,563,430	\$ 5,850,024
Net long-term capital gains	59,024,733	74,398,372
Total distributions paid	\$81,588,163	\$80,248,396

Notes to financial statements (cont'd)

As of December 31, 2021, the components of distributable earnings (loss) on a tax basis were as follows:

Undistributed ordinary income — net	\$ 436,308
Undistributed long-term capital gains — net	6,231,308
Total undistributed earnings	\$ 6,667,616
Other book/tax temporary differences ^(a)	(70,222)
Unrealized appreciation (depreciation)	161,230,632
Total distributable earnings (loss) — net	\$167,828,026

^(a) Other book/tax temporary differences are attributable to book/tax differences in the timing of the deductibility of various expenses.

11. Recent accounting pronouncement

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, *Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs are effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

12. Other matter

The outbreak of the respiratory illness COVID-19 (commonly referred to as “coronavirus”) has continued to rapidly spread around the world, causing considerable uncertainty for the global economy and financial markets. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The COVID-19 pandemic could adversely affect the value and liquidity of the Portfolio’s investments, impair the Portfolio’s ability to satisfy redemption requests, and negatively impact the Portfolio’s performance. In addition, the outbreak of COVID-19, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Portfolio by its service providers.

13. Subsequent event

On February 4, 2022, the Portfolio, together with other U.S. registered and foreign investment funds (collectively, the “Borrowers”) managed by Franklin Resources or its affiliates, became a borrower in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (the “Global Credit Facility”). The Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests. Unless renewed, the Global Credit Facility will terminate on February 3, 2023.

Report of independent registered public accounting firm

To the Board of Trustees of Legg Mason Partners Variable Equity Trust and Shareholders of ClearBridge Variable Aggressive Growth Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of ClearBridge Variable Aggressive Growth Portfolio (one of the funds constituting Legg Mason Partners Variable Equity Trust, referred to hereafter as the "Fund") as of December 31, 2021, the related statement of operations for the year ended December 31, 2021, the statement of changes in net assets for each of the two years in the period ended December 31, 2021, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2021 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2021, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2021 and the financial highlights for each of the five years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2021 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more investment companies in the Franklin Templeton Group of Funds since 1948.

Statement regarding liquidity risk management program (unaudited)

Each Fund has adopted and implemented a written Liquidity Risk Management Program (the “LRMP”) as required by Rule 22e-4 under the Investment Company Act of 1940 (the “Liquidity Rule”). The LRMP is designed to assess and manage each Fund’s liquidity risk, which is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors’ interests in the Fund. In accordance with the Liquidity Rule, the LRMP includes policies and procedures that provide for: (1) assessment, management, and review (no less frequently than annually) of each Fund’s liquidity risk; (2) classification of each Fund’s portfolio holdings into one of four liquidity categories (Highly Liquid, Moderately Liquid, Less Liquid, and Illiquid); (3) for Funds that do not primarily hold assets that are Highly Liquid, establishing and maintaining a minimum percentage of the Fund’s net assets in Highly Liquid investments (called a “Highly Liquid Investment Minimum” or “HLIM”); and (4) prohibiting the Fund’s acquisition of Illiquid investments that would result in the Fund holding more than 15% of its net assets in Illiquid assets. The LRMP also requires reporting to the Securities and Exchange Commission (“SEC”) (on a non-public basis) and to the Board if the Fund’s holdings of Illiquid assets exceed 15% of the Fund’s net assets. Funds with HLIMs must have procedures for addressing HLIM shortfalls, including reporting to the Board and, with respect to HLIM shortfalls lasting more than seven consecutive calendar days, reporting to the SEC (on a non-public basis).

The Director of Liquidity Risk within the Investment Risk Management Group (the “IRMG”) is the appointed Administrator of the LRMP. The IRMG maintains the Investment Liquidity Committee (the “ILC”) to provide oversight and administration of policies and procedures governing liquidity risk management for Franklin Templeton and Legg Mason products and portfolios. The ILC includes representatives from Franklin Templeton’s Risk, Trading, Global Compliance, Legal, Investment Compliance, Investment Operations, Valuation Committee, Product Management and Global Product Strategy.

In assessing and managing each Fund’s liquidity risk, the ILC considers, as relevant, a variety of factors, including the Fund’s investment strategy and the liquidity of its portfolio investments during both normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources including the Funds’ interfund lending facility and line of credit. Classification of the Fund’s portfolio holdings in the four liquidity categories is based on the number of days it is reasonably expected to take to convert the investment to cash (for Highly Liquid and Moderately Liquid holdings) or sell or dispose of the investment (for Less Liquid and Illiquid investments), in current market conditions without significantly changing the investment’s market value.

Each Fund primarily holds liquid assets that are defined under the Liquidity Rule as “Highly Liquid Investments,” and therefore is not required to establish an HLIM. Highly Liquid

Investments are defined as cash and any investment reasonably expected to be convertible to cash in current market conditions in three business days or less without the conversion to cash significantly changing the market value of the investment.

At meetings of the Funds' Board of Trustees/Directors held in November 2021, the Program Administrator provided a written report to the Board addressing the adequacy and effectiveness of the program for the year ended December 31, 2020. The Program Administrator report concluded that (i.) the LRMP, as adopted and implemented, remains reasonably designed to assess and manage each Fund's liquidity risk; (ii.) the LRMP, including the Highly Liquid Investment Minimum ("HLIM") where applicable, was implemented and operated effectively to achieve the goal of assessing and managing each Fund's liquidity risk; and (iii.) each Fund was able to meet requests for redemption without significant dilution of remaining investors' interests in the Fund.

Information about Trustees and Officers

The business and affairs of ClearBridge Variable Aggressive Growth Portfolio (the "Portfolio") are conducted by management under the supervision and subject to the direction of its Board of Trustees. The business address of each Trustee is c/o Jane Trust, Legg Mason, 100 International Drive, 11th Floor, Baltimore, Maryland 21202. Information pertaining to the Trustees and officers of the Portfolio is set forth below.

Previously, the mutual funds of Legg Mason Global Asset Management Trust were overseen by one group of Trustees, and the mutual funds of Legg Mason Partners Investment Trust and Legg Mason Partners Variable Equity Trust (collectively, the "Funds") were overseen by a different group of Trustees. A joint proxy statement was mailed to solicit shareholder approval for the election of a single slate of Trustees. Shareholders approved the proposed Trustees during a joint special meeting of shareholders on June 15, 2021. Effective July 1, 2021, the Trustees listed below oversee all of the Funds.

The Statement of Additional Information includes additional information about Trustees and is available, without charge, upon request by calling the Portfolio at 1-877-6LM-FUND/656-3863.

- Information received from consumer reporting agencies regarding credit history and creditworthiness (such as the amount of an individual’s total debt, payment history, etc.).

How the Funds Use Nonpublic Personal Information About You

The Funds do not sell or share your nonpublic personal information with third parties or with affiliates for their marketing purposes, or with other financial institutions or affiliates for joint marketing purposes, unless you have authorized the Funds to do so. The Funds do not disclose any nonpublic personal information about you except as may be required to perform transactions or services you have authorized or as permitted or required by law.

The Funds may disclose information about you to:

- Employees, agents, and affiliates on a “need to know” basis to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- Service providers, including the Funds’ affiliates, who assist the Funds as part of the ordinary course of business (such as printing, mailing services, or processing or servicing your account with us) or otherwise perform services on the Funds’ behalf, including companies that may perform statistical analysis, market research and marketing services solely for the Funds;
- Permit access to transfer, whether in the United States or countries outside of the United States to such Funds’ employees, agents and affiliates and service providers as required to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- The Funds’ representatives such as legal counsel, accountants and auditors to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- Fiduciaries or representatives acting on your behalf, such as an IRA custodian or trustee of a grantor trust.

Legg Mason Funds Privacy and Security Notice (cont'd)

Except as otherwise permitted by applicable law, companies acting on the Funds' behalf, including those outside the United States, are contractually obligated to keep nonpublic personal information the Funds provide to them confidential and to use the information the Funds share only to provide the services the Funds ask them to perform. The Funds may disclose nonpublic personal information about you when necessary to enforce their rights or protect against fraud, or as permitted or required by applicable law, such as in connection with a law enforcement or regulatory request, subpoena, or similar legal process. In the event of a corporate action or in the event a Fund service provider changes, the Funds may be required to disclose your nonpublic personal information to third parties. While it is the Funds' practice to obtain protections for disclosed information in these types of transactions, the Funds cannot guarantee their privacy policy will remain unchanged.

Keeping You Informed of the Funds' Privacy and Security Practices

The Funds will notify you annually of their privacy policy as required by federal law. While the Funds reserve the right to modify this policy at any time they will notify you promptly if this privacy policy changes.

The Funds' Security Practices

The Funds maintain appropriate physical, electronic and procedural safeguards designed to guard your nonpublic personal information. The Funds' internal data security policies restrict access to your nonpublic personal information to authorized employees, who may use your nonpublic personal information for Fund business purposes only.

Although the Funds strive to protect your nonpublic personal information, they cannot ensure or warrant the security of any information you provide or transmit to them, and you do so at your own risk. In the event of a breach of the confidentiality or security of your nonpublic personal information, the Funds will attempt to notify you as necessary, so you can take appropriate protective steps. If you have consented to the Funds using electronic communications or electronic delivery of statements, they may notify you under such circumstances using the most current email address you have on record with them.

In order for the Funds to provide effective service to you, keeping your account information accurate is very important. If you believe that your account information is incomplete, not accurate or not current, if you have questions about the Funds' privacy practices, or our use of your nonpublic personal information, write the Funds using the contact information on your account statements, email the Funds by clicking on the Contact Us section of the Funds' website at www.franklintempleton.com, or contact the Fund at 1-877-6LM-FUND/656-3863.

Revised April 2018

Legg Mason California Consumer Privacy Act Policy

Although much of the personal information we collect is "nonpublic personal information" subject to federal law, residents of California may, in certain circumstances, have additional rights under the California Consumer Privacy Act ("CCPA"). For example, if you are a broker,

Legg Mason Funds Privacy and Security Notice (cont'd)

dealer, agent, fiduciary, or representative acting by or on behalf of, or for, the account of any other person(s) or household, or a financial advisor, or if you have otherwise provided personal information to us separate from the relationship we have with personal investors, the provisions of this Privacy Policy apply to your personal information (as defined by the CCPA).

- In addition to the provisions of the Legg Mason Funds Security and Privacy Notice, you may have the right to know the categories and specific pieces of personal information we have collected about you.
- You also have the right to request the deletion of the personal information collected or maintained by the Funds.

If you wish to exercise any of the rights you have in respect of your personal information, you should advise the Funds by contacting them as set forth below. The rights noted above are subject to our other legal and regulatory obligations and any exemptions under the CCPA. You may designate an authorized agent to make a rights request on your behalf, subject to the identification process described below. We do not discriminate based on requests for information related to our use of your personal information, and you have the right not to receive discriminatory treatment related to the exercise of your privacy rights.

We may request information from you in order to verify your identity or authority in making such a request. If you have appointed an authorized agent to make a request on your behalf, or you are an authorized agent making such a request (such as a power of attorney or other written permission), this process may include providing a password/passcode, a copy of government issued identification, affidavit or other applicable documentation, i.e. written permission. We may require you to verify your identity directly even when using an authorized agent, unless a power of attorney has been provided. We reserve the right to deny a request submitted by an agent if suitable and appropriate proof is not provided.

For the 12-month period prior to the date of this Privacy Policy, the Legg Mason Funds have not sold any of your personal information; nor do we have any plans to do so in the future.
