* Non-income producing security.

- (a) All or a portion of security is on loan. The aggregate market value of such securities, including those sold and pending settlement, is \$33,867,296; cash collateral of \$33,755,062 (included in liabilities) was received with which the Portfolio purchased highly liquid short-term investments. In the event of significant appreciation in value of securities on loan on the last business day of the reporting period, the Portfolio may reflect a collateral value that is less than the market value of the loaned securities and such shortfall is remedied the following business day.
- (b) Represents security, or portion thereof, purchased with cash collateral received for securities on loan and includes dividend reinvestment.
