Below is a list of the abbreviation(s) used in the quarterly schedule of portfolio holdings:

* Non-income producing security.

(a) All or a portion of security is on loan. The aggregate market value of such securities, including those sold and pending settlement, is \$52,308,203; cash collateral of \$53,987,811 (included in liabilities) was received with which the Portfolio purchased highly liquid short-term investments. In the event of significant appreciation in value of securities on loan on the last business day of the reporting period, the Portfolio may reflect a collateral value that is less than the market value of the loaned securities and such shortfall is remedied the following business day.
