

## Invesco<sup>®</sup> V.I. S&P 500 Buffer Fund - December

---

The Fund provides a complete list of its portfolio holdings four times each year, at the end of each fiscal quarter. For the second and fourth quarters, the list appears, respectively, in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the list with the Securities and Exchange Commission (SEC) as an exhibit to its reports on Form N-PORT. The Fund's Form N-PORT filings are available on the SEC website, [sec.gov](http://sec.gov). The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-PORT, have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at [invesco.com/corporate/about-us/esg](http://invesco.com/corporate/about-us/esg). The information is also available on the SEC website, [sec.gov](http://sec.gov).

Information regarding how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 is available at [invesco.com/proxysearch](http://invesco.com/proxysearch). The information is also available on the SEC website, [sec.gov](http://sec.gov).

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

**This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.**

# Management's Discussion of Fund Performance

## Performance summary

For the year ended December 31, 2022, Series I shares of Invesco® V.I. S&P 500 Buffer Fund - December (the Fund) outperformed the S&P 500 Index.

Your Fund's long-term performance appears later in this report.

## Fund vs. Indexes

Total returns, 12/31/21 to 12/31/22, excluding variable product issuer charges. If variable product issuer charges were included, returns would be lower.

Series I Shares	-10.70%
Series II Shares	-10.90
S&P 500 Index▼	-19.44

## Market conditions and your Fund

Equity markets declined in the first quarter of 2022 amid volatility sparked by Russia's invasion of Ukraine, rising commodity prices, rampant global inflation and the US Federal Reserve's (the Fed) shift toward tighter monetary policy. Russia's invasion exacerbated inflation pressures, disrupting already strained supply chains and increasing shortages of oil, gas and raw materials. The price of oil rose sharply, with crude prices reaching their highest price per barrel since 2008.<sup>1</sup> Inflation continued to be a top concern for consumers, investors and the Fed. To combat inflation, the Fed raised the federal funds rate by one-quarter percentage point in March and indicated it would "taper" its asset purchase program quickly.<sup>2</sup>

As the war in Ukraine continued and corporate earnings in high-profile names like Netflix reported slowing growth and profits, the equity markets sold off for much of April 2022. The downward direction of the equity markets continued into the second quarter of 2022 amid substantial inflation, rising interest rates and an increasing likelihood of a US recession. Driven by higher food and energy prices, the consumer price index rose by yet another 40-year high to 8.6% for the twelve months ended May 2022.<sup>3</sup> Oil prices peaked near \$122 per barrel in early June, resulting in skyrocketing gasoline prices; the national average price reached a record high above \$5 per gallon in early June.<sup>1</sup> In an attempt to tame inflation, the Fed raised the benchmark federal funds rate three more times, by 0.50% in May, by 0.75% in June and another 0.75% in July, which were the largest increases in nearly 30 years.<sup>2</sup> US equity markets rose in July and August until Fed chairman Jerome Powell's hawkish comments at an economic policy symposium held in Jackson Hole, which sparked a sharp selloff at month-end. The Fed reiterated that it would continue taking aggressive action to curb inflation, even though such measures could "bring pain to households and businesses," and the Fed raised the benchmark federal funds rate by another 0.75% in September.<sup>2</sup>

After experiencing a sharp drop in September 2022, US equity markets rebounded in October and November, despite mixed data

on the economy and corporate earnings.<sup>1</sup> However, the Fed's message of continued rate hikes until data shows inflation meaningfully declining, sent markets lower in December.<sup>1</sup> As energy prices declined,<sup>1</sup> the rate of inflation slowed modestly in the fourth quarter of 2022.<sup>3</sup> Corporate earnings generally met expectations, though companies provided cautious future guidance. With inflation still at multi-decade highs and little evidence of a slowing economy, the Fed raised its target rate by 0.75% in November and by 0.50% in December, marking its highest level in over a decade.<sup>2</sup>

In this environment, US stocks had negative double-digit returns for the fiscal year of -19.44%, as measured by the S&P 500 Index.<sup>1</sup>

The **Invesco® V.I. S&P 500 Buffer Fund - December** seeks, over a specified annual Outcome Period (an "Outcome Period"), to provide investors with returns that match those of the S&P 500 Index (the "Underlying Index") up to an upside cap, while providing a buffer against the first 10% (prior to taking into account any fees and expenses of the Fund) of Underlying Index losses.

The Fund's cap for the current Outcome Period, which represents the maximum percentage return (expressed as a percentage of the value of the Underlying Index determined at the start of the Outcome Period) that can be achieved from an investment in the Fund over the entire Outcome Period (the "Cap"), is 20.00%. This Cap is before considering fees and expenses of the Fund. A new Cap level for each successive Outcome Period will be determined at the end of the trading day immediately preceding the first day of each new Outcome Period, based on market conditions and other factors. If the Underlying Index experiences returns over an Outcome Period in excess of the Cap, the Fund, and therefore investors, will not experience those excess gains.

**The Fund's current Outcome Period is twelve months, commencing on January 1, 2023 and ending on the following December 31, 2023.**

For the one-year period that ended December 31, 2022, the S&P 500 Index returned -19.44%,<sup>1</sup> whilst the Invesco® V.I. S&P 500 Buffer Fund - December (share class I) re-

turned -10.70% net of fees. The Fund's performance information is accessible on the Fund's website. The Fund's website also provides important Fund information on a daily basis, including information about the Cap and Buffer, current Outcome Period start and end dates, and information relating to the remaining potential outcomes of an investment in the Fund.

**The Fund has characteristics unlike many other traditional investment products and is not appropriate for all investors. In particular, investment in the Fund may not be appropriate for investors who do not intend to maintain their investment through the entire Outcome Period. There is no guarantee that the Fund will be able to achieve the stated Defined Outcomes.**

# Your Fund's Long-Term Performance

## Results of a \$10,000 Investment – Oldest Share Class(es)

Fund and index data from 12/31/21

1 Source: RIMES Technologies Corp.

Past performance cannot guarantee future results.

Average Annual Total Returns	
As of 12/31/22	
<b>Series I Shares</b>	
Inception(12/31/21)	-10.70%
1 Year	-10.70
<b>Series II Shares</b>	
Inception(12/31/21)	-10.90%
1 Year	-10.90

The performance of the Fund's Series I and Series II share classes will differ primarily due to different class expenses.

The performance data quoted represent past performance and cannot guarantee future results; current performance may be lower or higher. Please contact your variable product issuer or financial adviser for the most recent month-end variable product performance. Performance figures reflect Fund expenses, reinvested distributions and changes in net asset value. Performance figures do not reflect deduction of taxes a shareholder would pay on Fund distributions or sale of Fund shares. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

Invesco® V.I. S&P 500 Buffer Fund - December, a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds), is currently offered through insurance companies issuing variable products. You cannot purchase shares of the Fund directly. Performance figures given represent the Fund and are not intended to reflect actual variable product values. They do not reflect sales charges, expenses and fees assessed in connection with a variable

product. Sales charges, expenses and fees, which are determined by the variable product issuers, will vary and will lower the total return.

The most recent month-end performance data at the Fund level, excluding variable product charges, is available at 800 451 4246. As mentioned above, for the most recent month-end performance including variable product charges, please contact your variable product issuer or financial adviser.

Fund performance reflects any applicable fee waivers and/or expense reimbursements. Had the adviser not waived fees and/or reimbursed expenses currently or in the past, returns would have been lower. See current prospectus for more information.

---

## Supplemental Information

**Invesco® V.I. S&P 500 Buffer Fund - December seeks, over a specified annual Outcome Period, to provide investors with returns that match those of the S&P 500 Index (the “Underlying Index”) up to an upside cap, while providing a buffer against the first 10% (prior to taking into account any fees and expenses of the Fund) of Underlying Index losses.**

# Financial Highlights

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

	Net asset value, beginning of period	Net investment income (loss) <sup>(a)</sup>	Net gains (losses) on securities (both realized and unrealized)	Total from investment operations	Net asset value, end of period	Total return <sup>(b)</sup>	Net assets, end of period (000's omitted)	Ratio of expenses to average net assets with fee waivers and/or expenses absorbed	Ratio of expenses to average net assets without fee waivers and/or expenses absorbed	Ratio of net investment income (loss) to average net assets	Portfolio turnover <sup>(c)</sup>
<b>Series I</b>											
Year ended 12/31/22	\$10.00	\$(0.06)	\$(0.98)	\$(1.04)	\$ 8.96	(10.40)%	\$ 477	0.70%	1.90%	(0.64)%	0%
Period ended 12/31/21 <sup>(d)</sup>	10.00	(0.00)	-	(0.00)	10.00	-	1,000	0.70 <sup>(e)</sup>	643.01 <sup>(e)</sup>	(0.70) <sup>(e)</sup>	0
<b>Series II</b>											
Year ended 12/31/22	10.00	(0.08)	(0.99)	(1.07)	8.93	(10.70)	8,748	0.95	2.15	(0.89)	0
Period ended 12/31/21 <sup>(d)</sup>	10.00	(0.00)	-	(0.00)	10.00	-	1,000	0.95 <sup>(e)</sup>	643.26 <sup>(e)</sup>	(0.95) <sup>(e)</sup>	0

<sup>(a)</sup> Calculated using average shares outstanding.

<sup>(b)</sup> Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable, and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

<sup>(c)</sup> Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable.

<sup>(d)</sup> Commencement date of December 31, 2021.

<sup>(e)</sup> Annualized.

See accompanying Notes to Financial Statements which are an integral part of the financial statements.

# Notes to Financial Statements

December 31, 2022

## NOTE 1—Significant Accounting Policies

Invesco® V.I. S&P 500 Buffer Fund - December (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company. Information presented in these financial statements pertains only to the Fund. Matters affecting the Fund or each class will be voted on exclusively by the shareholders of the Fund or each class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund seeks, over a specified annual outcome period, to provide investors with returns that match those of the S&P 500® Index (the "Underlying Index") up to an upside cap, while providing a buffer against the first 10% (prior to taking into account any fees and expenses of the Fund) of Underlying Index losses. The Fund invests, under normal circumstances, at least 80% its net assets (plus any borrowings for investment purposes) in options that reference the Underlying Index or options that reference the SPDR® S&P 500® ETF Trust, which is an exchange-traded unit investment trust that seeks to track the Underlying Index.

The Fund employs a "Defined Outcome" strategy, which seeks to replicate the performance of the Underlying Index over a designated period of 12 months (the "Outcome Period") up to a predetermined cap (the "Cap"), while providing a buffer against the first 10% of Underlying Index losses over the Outcome Period (the "Buffer"). Following the conclusion of the initial Outcome Period, each subsequent Outcome Period will be a one-year period that begins on the trading day that immediately follows the day that the preceding Outcome Period concluded. New Cap levels will be determined at the end of the trading day immediately preceding the first day of each new Outcome Period and will change depending on market conditions. The Buffer for each Outcome Period will be 10%. The Fund's Cap represents the maximum percentage return, expressed as a percentage of the value of the Underlying Index determined at the start of the relevant Outcome Period (the "Underlying Index Start Value"), that can be achieved from an investment in the Fund over an Outcome Period, prior to taking into account any fees and expenses of the Fund. The Fund's Buffer represents the amount of losses, expressed as a percentage of the Underlying Index Start Value, that the Fund will buffer against if the Underlying Index experiences losses over an Outcome Period, prior to taking into account any fees and expenses of the Fund. Underlying Index losses over an Outcome Period that exceed the Buffer will be borne by shareholders.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

### A. Security Valuations – Securities, including restricted securities, are valued according to the following policy.

A security listed or traded on an exchange is generally valued at its trade price or official closing price that day as of the close of the exchange where the security is principally traded, or lacking any trades or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued using prices provided by an independent pricing service they may be considered fair valued. Futures contracts are valued at the daily settlement price set by an exchange on which they are principally traded. U.S. exchange-traded options are valued at the mean between the last bid and asked prices from the exchange on which they are principally traded. Non-U.S. exchange-traded options are valued at the final settlement price set by the exchange on which they trade. Options not listed on an exchange and swaps generally are valued using pricing provided from independent pricing services.

Securities of investment companies that are not exchange-traded (e.g., open-end mutual funds) are valued using such company's end-of-business-day net asset value per share.

Deposits, other obligations of U.S. and non-U.S. banks and financial institutions are valued at their daily account value.

Fixed income securities (including convertible debt securities) generally are valued on the basis of prices provided by independent pricing services. Prices provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate (for unlisted equities), yield (for debt obligations), quality, type of issue, coupon rate (for debt obligations), maturity (for debt obligations), individual trading characteristics and other market data. Pricing services generally value debt obligations assuming orderly transactions of institutional round lot size, but a fund may hold or transact in the same securities in smaller, odd lot sizes. Odd lots often trade at lower prices than institutional round lots, and their value may be adjusted accordingly. Debt obligations are subject to interest rate and credit risks. In addition, all debt obligations involve some risk of default with respect to interest and/or principal payments.

Foreign securities' (including foreign exchange contracts) prices are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the New York Stock Exchange ("NYSE"). If market quotations are available and reliable for foreign exchange-traded equity securities, the securities will be valued at the market quotations. Invesco Advisers, Inc. (the "Adviser" or "Invesco") may use various pricing services to obtain market quotations as well as fair value prices. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become not representative of market value in the Adviser's judgment ("unreliable"). If, between the time trading ends on a particular security and the close of the customary trading session on the NYSE, a significant event occurs that makes the closing price of the security unreliable, the Adviser may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith in accordance with Board-approved policies and related Adviser procedures ("Valuation Procedures"). Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current value as of the close of the NYSE. Foreign securities' prices meeting the degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Unlisted securities will be valued using prices provided by independent pricing services or by another method that the Adviser, in its judgment, believes better reflects the security's fair value in accordance with the Valuation Procedures.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices may be used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available are fair valued by the Adviser in accordance with the Valuation Procedures. If a fair value price provided by a pricing service is unreliable, the Adviser will fair value the security using the Valuation Procedures. Issuer specific events, market trends, bid/asked quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

The Fund may invest in securities that are subject to interest rate risk, meaning the risk that the prices will generally fall as interest rates rise and, conversely, the prices will generally rise as interest rates fall. Specific securities differ in their sensitivity to changes in interest rates depending on their individual characteristics. Changes in interest rates may result in increased market volatility, which may affect the value and/or liquidity of certain Fund investments.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general market conditions which are not specifically related to the particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates, regional or global instability, natural or environmental disasters, widespread disease or other public health issues, war, acts of terrorism, significant governmental actions or adverse investor sentiment generally and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

The price the Fund could receive upon the sale of any investment may differ from the Adviser's valuation of the investment, particularly for securities that are valued using a fair valuation technique. When fair valuation techniques are applied, the Adviser uses available information, including both observable and unobservable inputs and assumptions, to determine a methodology that will result in a valuation that the Adviser believes approximates market value. Fund securities that are fair valued may be subject to greater fluctuation in their value from one day to the next than would be the case if market quotations were used. Because of the inherent uncertainties of valuation, and the degree of subjectivity in such decisions, the Fund could realize a greater or lesser than expected gain or loss upon the sale of the investment.

- B. Securities Transactions and Investment Income** – Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income (net of withholding tax, if any) is recorded on an accrual basis from settlement date and includes coupon interest and amortization of premium and accretion of discount on debt securities as applicable. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Operations and the Statement of Changes in Net Assets, or the net investment income per share and the ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

- C. Country Determination** – For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues, the country that has the primary market for the issuer's securities and its "country of risk" as determined by a third party service provider, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.

- D. Distributions** - Distributions from net investment income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.

- E. Federal Income Taxes** – The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained. Management has analyzed the Fund's uncertain tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions. Management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

- F. Expenses** – Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.

- G. Accounting Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.

- H. Indemnifications** – Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.

- I. Flex Options Purchased and Written** – The Fund invests primarily in FLEXible EXchange® Options ("FLEX® Options"), which are non-standard Options that allow users to negotiate key contract terms, including exercise prices, exercise styles, and expiration dates, on major stock indexes as well as individual equities. Other benefits of FLEX® Options, include guarantee for settlement by the Options Clearing Corporation (the "OCC"), a market clearinghouse that guarantees performance by two parties ("Counterparties") to certain derivatives contracts and protection from Counterparty risk that is associated with Over-the-counter trading.

The Fund will purchase and sell put and call FLEX® Options. Put options give the holder (the buyer of the put) the right to sell an asset (or deliver the cash value of the Underlying Index, in case of an index put option) and gives the seller of the put (the writer) of the put the obligation to buy the asset (or receive cash value of the Underlying Index, in case of an index put option) at a certain defined price. Call options give the holder (the buyer of the call) the right to buy an asset (or receive cash value of the Underlying Index, in case of an index call option) and gives the seller of the call (the writer) the obligation to sell the asset (or deliver cash value of the Underlying Index, in case of an index call option) at a certain defined price.

When the Fund purchases an option, an amount equal to the premium paid by the Fund is recorded as an investment and is subsequently adjusted to the current value of the option purchased. If an option expires on the stipulated expiration date or if the Fund enters into a closing sale transaction, a gain or loss is realized. If a call option is exercised, the cost of the security acquired is increased by the premium paid for the call. If a put option is exercised, a gain or loss is realized from the sale of the underlying security, and the proceeds from such sale are decreased by the premium originally paid. Purchased options are non-income producing securities. Options purchased are reported as Investments in unaffiliated securities on the Statement of Assets and Liabilities. Realized and unrealized

gains and losses on options purchased are included on Statement of Operations as Net realized gain (loss) from and Change in net unrealized appreciation (depreciation) of Investment securities.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gain from written options. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as the writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Options written are reported as a liability on the Statement of Assets and Liabilities. Realized and unrealized gains and losses on options written are included on the Statement of Operations as Net realized gain (loss) from and Change in net unrealized appreciation (depreciation) of Option contracts written.

The Fund bears the risk that the OCC could be unable or unwilling to perform its obligations under the FLEX<sup>®</sup> Options contracts, which could cause significant losses. Additionally, FLEX<sup>®</sup> Options may be less liquid than certain other securities such as standardized options. In less liquid markets for the FLEX<sup>®</sup> Options, the Fund may have difficulty closing out certain FLEX<sup>®</sup> Options positions under the customized terms. The Fund may experience substantial downside from specific FLEX<sup>®</sup> Option positions and certain FLEX<sup>®</sup> Option positions may expire worthless. The value of the underlying FLEX<sup>®</sup> Options will be affected by, among others, changes in the value of the exchange, changes in interest rates, changes in the actual and implied volatility of the Underlying Index and the remaining time to until the FLEX<sup>®</sup> Options expire. The value of the FLEX<sup>®</sup> Options does not increase or decrease at the same rate as the level of the Underlying Index (although they generally move in the same direction). However, as a FLEX<sup>®</sup> Option approaches its expiration date, its value typically increasingly moves with the value of the Underlying Index.

- J. Leverage Risk** – Leverage exists when the Fund can lose more than it originally invests because it purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction.
- K. Buffered Loss Risk** - The term “buffer” is a generic term that is widely used in the investment management and financial services industries to describe an investment product or strategy that is designed to mitigate or alleviate downside risk. The Buffer for the Fund is designed to limit downside losses for shares purchased at the beginning and held until the end of the Outcome Period; however, there is no guarantee that the Fund will be successful in implementing its stated Buffer strategy in an Outcome Period or that the Buffer will effectively protect against any or all losses. If the Underlying Index declines over an Outcome Period by more than the Buffer, shareholders will bear the amount of the loss in excess of the Buffer at the end of the Outcome Period (plus Fund fees and expenses). If an investor purchases shares of the Fund during an Outcome Period after the Underlying Index’s value has decreased, the investor may receive less, or none, of the intended benefit of the Buffer. The Fund does not provide principal protection or protection of gains and shareholders could experience significant losses, including loss of their entire investment.
- L. Capped Return Risk** - If the Underlying Index experiences returns over the Outcome Period in excess of the Cap, the Fund will not participate in such returns beyond the Cap. In this way, the Fund is unlike other investment companies that seek to replicate the performance of the Underlying Index in all cases. If shares are purchased after the beginning of the Outcome Period, and the Fund’s net asset value has already achieved returns at or near the Cap, there may be no ability to experience any return on investment, but such purchaser remains vulnerable to risk of loss. Additionally, the Fund’s Defined Outcome strategy may not be successful in replicating the returns (before Fund fees and expenses) of the Underlying Index up to the level of the Cap.
- M. Cap Level Change Risk** - At the end of the trading day immediately preceding the first day of each Outcome Period, a new Cap is established, depending on the market conditions and the prices for options contracts on the Underlying Index at the time. Therefore, the level of the Cap may rise or fall for subsequent Outcome Periods and is unlikely to remain the same. If the Caps for future Outcome Periods of the Fund were to decrease, shareholders in the Fund would have less opportunity to participate in any future positive returns of the Underlying Index.
- N. Non-Diversified Risk** - Under the 1940 Act, a fund designated as “diversified” must limit its holdings such that the securities of issuers which individually represent more than 5% of its total assets must in the aggregate represent less than 25% of its total assets. The Fund is classified as “diversified” for purposes of the 1940 Act. However, the Fund may be “non-diversified,” as defined in the 1940 Act, solely as a result of a change in relative market capitalization or index weighting of one or more constituents of the Underlying Index. A non-diversified fund can invest a greater portion of its assets in the securities of a small number of issuers or any single issuer than a diversified fund can. In such circumstances, a change in the value of one or a few issuers’ securities will therefore affect the value of the Fund more than if it was a diversified fund. As such, the Fund’s performance may be hurt disproportionately by the poor performance of relatively few stocks, or even a single stock, and the Fund’s shares may experience significant fluctuations in value.
- O. COVID-19 Risk** - The COVID-19 strain of coronavirus has resulted in instances of market closures and dislocations, extreme volatility, liquidity constraints and increased trading costs. Efforts to contain its spread have resulted in travel restrictions, disruptions of healthcare systems, business operations (including business closures) and supply chains, layoffs, lower consumer demand and employee availability, and defaults and credit downgrades, among other significant economic impacts that have disrupted global economic activity across many industries. Such economic impacts may exacerbate other pre-existing political, social and economic risks locally or globally and cause general concern and uncertainty. The full economic impact and ongoing effects of COVID-19 (or other future epidemics or pandemics) at the macro-level and on individual businesses are unpredictable and may result in significant and prolonged effects on the Fund’s performance.

## NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with the Adviser. Under the terms of the investment advisory agreement, the Fund accrues daily and pays monthly an advisory fee to the Adviser based on the annual rate of the Fund’s average daily net assets as follows:

Average Daily Net Assets	Rate
First \$2 billion	0.420%
Over \$2 billion	0.400%

For year ended December 31, 2022, the effective advisory fee rate incurred by the Fund was 0.42%.

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. and separate sub-advisory agreements with Invesco Capital Management LLC and Invesco Asset Management (India) Private Limited (collectively, the “Affiliated Sub-Advisers”) the Adviser, not the Fund, will pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide(s) discretionary investment management services to the Fund based on the percentage of assets allocated to such Affiliated Sub-Adviser(s).

The Adviser has contractually agreed, through at least April 30, 2024, to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses after fee waiver and/or expense reimbursement (excluding certain items discussed below) of Series I shares to 0.70% and Series II shares to 0.95% of the Fund’s average daily net assets (the “expense limits”). In determining the Adviser’s obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waiver and/or expense reimbursement to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation

expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Unless Invesco continues the fee waiver agreement, it will terminate on April 30, 2024. During its term, the fee waiver agreement cannot be terminated or amended to increase the expense limits or reduce the advisory fee waiver without approval of the Board of Trustees.

Further, the Adviser has contractually agreed, through at least June 30, 2024, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds.

For the year ended December 31, 2022, the Adviser waived advisory fees of \$37,707 and reimbursed fund level expenses of \$69,923.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for fees paid to insurance companies that have agreed to provide certain administrative services to the Fund. These administrative services provided by the insurance companies may include, among other things: maintenance of master accounts with the Fund; tracking, recording and transmitting net purchase and redemption orders for Fund shares; maintaining and preserving records related to the purchase, redemption and other account activity of variable product owners; distributing copies of Fund documents such as prospectuses, proxy materials and periodic reports, to variable product owners, and responding to inquiries from variable product owners about the Fund. Pursuant to such agreement, for the year ended December 31, 2022, Invesco was paid \$1,306 for accounting and fund administrative services and was reimbursed \$10,795 for fees paid to insurance companies. Invesco has entered into a sub-administration agreement whereby State Street Bank and Trust Company ("SSB") serves as fund accountant and provides certain administrative services to the Fund. Pursuant to a custody agreement with the Trust on behalf of the Fund, SSB also serves as the Fund's custodian.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the year ended December 31, 2022, expenses incurred under the agreement are shown in the Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Series II shares (the "Plan"). The Fund, pursuant to the Plan, pays IDI compensation at the annual rate of 0.25% of the Fund's average daily net assets of Series II shares. The fees are accrued daily and paid monthly. Of the Plan payments, up to 0.25% of the average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the year ended December 31, 2022, expenses incurred under the Plan are detailed in the Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

### NOTE 3—Additional Valuation Information

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods, giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3), generally when market prices are not readily available. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

Level 1 - Prices are determined using quoted prices in an active market for identical assets.

Level 2 - Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.

Level 3 - Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Adviser's assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of December 31, 2022. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

	Level 1	Level 2	Level 3	Total
<b>Investments in Securities</b>				
Money Market Funds	\$401,984	\$ -	\$-	\$ 401,984
Options Purchased	-	9,585,403	-	9,585,403
<b>Total Investments in Securities</b>	<b>401,984</b>	<b>9,585,403</b>	<b>-</b>	<b>9,987,387</b>
<b>Other Investments - Liabilities*</b>				
Options Written	-	(629,012)	-	(629,012)
<b>Total Investments</b>	<b>\$401,984</b>	<b>\$8,956,391</b>	<b>\$-</b>	<b>\$9,358,375</b>

\* Options written are shown at value.

### NOTE 4—Derivative Investments

The Fund may enter into an International Swaps and Derivatives Association Master Agreement ("ISDA Master Agreement") under which a fund may trade OTC derivatives. An OTC transaction entered into under an ISDA Master Agreement typically involves a collateral posting arrangement, payment netting provisions and close-out netting provisions. These netting provisions allow for reduction of credit risk through netting of contractual obligations. The enforceability of the netting provisions of the ISDA Master Agreement depends on the governing law of the ISDA Master Agreement, among other factors.

For financial reporting purposes, the Fund does not offset OTC derivative assets or liabilities that are subject to ISDA Master Agreements in the Statement of Assets and Liabilities.

## Value of Derivative Investments at Period-End

The table below summarizes the value of the Fund's derivative investments, detailed by primary risk exposure, held as of December 31, 2022:

	Value Equity Risk
<b>Derivative Assets</b>	
Options purchased, at value <sup>(a)</sup>	\$ 9,585,403
Derivatives not subject to master netting agreements	(9,585,403)
Total Derivative Assets subject to master netting agreements	\$ -
<b>Derivative Liabilities</b>	
Options written, at value	\$ (629,012)
Derivatives not subject to master netting agreements	629,012
Total Derivative Liabilities subject to master netting agreements	\$ -

<sup>(a)</sup> Options purchased, at value as reported in the Schedule of Investments.

## Effect of Derivative Investments for the year ended December 31, 2022

The table below summarizes the gains (losses) on derivative investments, detailed by primary risk exposure, recognized in earnings during the period:

	Location of Gain (Loss) on Statement of Operations Equity Risk
Realized Gain (Loss):	
Options purchased <sup>(a)</sup>	\$(600,286)
Options written	(261,782)
Change in Net Unrealized Appreciation:	
Options purchased <sup>(a)</sup>	11,068
Options written	8,655
Total	\$(842,345)

<sup>(a)</sup> Options purchased are included in the net realized gain (loss) from investment securities and the change in net unrealized appreciation (depreciation) of investment securities.

The table below summarizes the average notional value of derivatives held during the period.

	Equity Options Purchased	Index Options Purchased	Equity Options Written	Index Options Written
Average notional value	\$4,703,403	\$5,511,467	\$9,238,740	\$10,874,487
Average contracts	193	23	193	23

## NOTE 5—Trustees' and Officers' Fees and Benefits

*Trustees' and Officers' Fees and Benefits* include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and *Trustees' and Officers' Fees and Benefits* also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Obligations under the deferred compensation plan represent unsecured claims against the general assets of the Fund.

## NOTE 6—Cash Balances

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with SSB, the custodian bank. Such balances, if any at period-end, are shown in the Statement of Assets and Liabilities under the payable caption Amount due custodian. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate. The Fund may not purchase additional securities when any borrowings from banks or broker-dealers exceed 5% of the Fund's total assets, or when any borrowings from an Invesco Fund are outstanding.

**NOTE 7—Distributions to Shareholders and Tax Components of Net Assets**

There were no ordinary income or long-term capital gain distributions paid during the year ended December 31, 2022 and the period December 31, 2021 (commencement date) through December 31, 2021.

**Tax Components of Net Assets at Period-End:**

	2022
Net unrealized appreciation – investments	\$ 13
Temporary book/tax differences	(3,442)
Capital loss carryforward	(842,351)
Shares of beneficial interest	10,069,942
Total net assets	\$ 9,224,162

The difference between book-basis and tax-basis unrealized appreciation (depreciation) is due to differences in the timing of recognition of gains and losses on investments for tax and book purposes. The Fund's net unrealized appreciation (depreciation) difference is attributable primarily to straddles.

The temporary book/tax differences are a result of timing differences between book and tax recognition of income and/or expenses. The Fund's temporary book/tax differences are the result of the trustee deferral of compensation and retirement plan benefits.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund has a capital loss carryforward as of December 31, 2022, as follows:

**Capital Loss Carryforward\***

Expiration	Short-Term	Long-Term	Total
Not subject to expiration	\$336,944	\$505,407	\$842,351

\* Capital loss carryforward is reduced for limitations, if any, to the extent required by the Internal Revenue Code and may be further limited depending upon a variety of factors, including the realization of net unrealized gains or losses as of the date of any reorganization.

**NOTE 8—Investment Transactions**

There were no securities (other than short-term securities, U.S. Government obligations and money market funds, if any) purchased or sold by the Fund during the year ended December 31, 2022. Cost of investments, including any derivatives, on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

**Unrealized Appreciation (Depreciation) of Investments on a Tax Basis**

Aggregate unrealized appreciation of investments	\$ 6,347
Aggregate unrealized (depreciation) of investments	(6,334)
Net unrealized appreciation of investments	\$ 13

Cost of investments for tax purposes is \$9,358,362.

**NOTE 9—Reclassification of Permanent Differences**

Primarily as a result of differing book/tax treatment of net operating losses, on December 31, 2022, undistributed net investment income (loss) was increased by \$73,756 and shares of beneficial interest was decreased by \$73,756. This reclassification had no effect on the net assets of the Fund.

**NOTE 10—Share Information****Summary of Share Activity**

	Year ended December 31, 2022 <sup>(a)</sup>		December 31, 2021 <sup>(b)</sup>	
	Shares	Amount	Shares	Amount
<b>Sold:</b>				
Series I	-	\$ -	100,001	\$1,000,010
Series II	1,009,873	9,715,840	100,001	1,000,010
<b>Reacquired:</b>				
Series I	(46,809)	(418,000)	(1)	(10)
Series II	(130,682)	(1,154,097)	(1)	(10)

<sup>(a)</sup> There is an entity that is a record owner of more than 5% of the outstanding shares of the Fund and owns 90% of the outstanding shares of the Fund. The Fund and the Fund's principal underwriter or adviser, are parties to participation agreements with the entity whereby the entity sell units of interest in separate accounts funding variable products that are invested in the Fund. The Fund, Invesco and/or Invesco affiliates may make payments to the entity, which are considered to be related to the Fund, for providing services to the Fund, Invesco and/or Invesco affiliates including but not limited to services such as, securities brokerage, third party record keeping and account servicing and administrative services. The Fund has no knowledge as to whether all or any portion of the shares owned of record by the entity are also owned beneficially.

In addition, 10% of the outstanding shares of the Fund are owned by the Adviser or an affiliate of the Adviser.

<sup>(b)</sup> Commencement date of December 31, 2021.

# Report of Independent Registered Public Accounting Firm

To the Board of Trustees of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) and Shareholders of Invesco® V.I. S&P 500 Buffer Fund - December

## **Opinion on the Financial Statements**

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Invesco® V.I. S&P 500 Buffer Fund - December (one of the funds constituting AIM Variable Insurance Funds (Invesco Variable Insurance Funds), referred to hereafter as the "Fund") as of December 31, 2022, the related statement of operations for the year ended December 31, 2022 and the statement of changes in net assets and the financial highlights for the year ended December 31, 2022 and for the period December 31, 2021 (commencement of operations) through December 31, 2021, including the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2022, the results of its operations for the year ended December 31, 2022, and the changes in its net assets and the financial highlights for the year ended December 31, 2022 and for the period December 31, 2021 (commencement of operations) through December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

## **Basis for Opinion**

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2022 by correspondence with the custodian, transfer agent and broker; when replies were not received from the broker, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP

Houston, Texas  
February 14, 2023

We have served as the auditor of one or more of the investment companies in the Invesco group of investment companies since at least 1995. We have not been able to determine the specific year we began serving as auditor.

# Calculating your ongoing Fund expenses

## Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period July 1, 2022 through December 31, 2022.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

## Actual expenses

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

## Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

*The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.*

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value (07/01/22)	ACTUAL		HYPOTHETICAL (5% annual return before expenses)		Annualized Expense Ratio
		Ending Account Value (12/31/22) <sup>1</sup>	Expenses Paid During Period <sup>2</sup>	Ending Account Value (12/31/22)	Expenses Paid During Period <sup>2</sup>	
Series I	\$1,000.00	\$1,031.20	\$3.58	\$1,021.68	\$3.57	0.70%
Series II	1,000.00	1,030.10	4.86	1,020.42	4.84	0.95

<sup>1</sup> The actual ending account value is based on the actual total return of the Fund for the period July 1, 2022 through December 31, 2022, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

<sup>2</sup> Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 184/365 to reflect the most recent fiscal half year.

# Tax Information

Form 1099-DIV, Form 1042-S and other year-end tax information provide shareholders with actual calendar year amounts that should be included in their tax returns. Shareholders should consult their tax advisers.

The following distribution information is being provided as required by the Internal Revenue Code or to meet a specific state's requirement.

The Fund designates the following amounts or, if subsequently determined to be different, the maximum amount allowable for its fiscal year ended December 31, 2022:

## **Federal and State Income Tax**

Qualified Dividend Income*	0.00%
Corporate Dividends Received Deduction*	0.00%
U.S. Treasury Obligations*	0.00%
Qualified Business Income*	0.00%
Business Interest Income*	0.00%

\* The above percentages are based on ordinary income dividends paid to shareholders during the Fund's fiscal year.

# Trustees and Officers

The address of each trustee and officer is AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"), 11 Greenway Plaza, Suite 1000, Houston, Texas 77046-1173. The trustees serve for the life of the Trust, subject to their earlier death, incapacitation, resignation, retirement or removal as more specifically provided in the Trust's organizational documents. Each officer serves for a one year term or until their successors are elected and qualified. Column two below includes length of time served with predecessor entities, if any.

Name, Year of Birth and Position(s) Held with the Trust	Trustee and/or Officer Since	Principal Occupation(s) During Past 5 Years	Number of Funds in Fund Complex Overseen by Trustee	Other Directorship(s) Held by Trustee During Past 5 Years
<b>Interested Trustee</b>				
Martin L. Flanagan <sup>1</sup> – 1960 Trustee and Vice Chair	2007	Executive Director, Chief Executive Officer and President, Invesco Ltd. (ultimate parent of Invesco and a global investment management firm); Trustee and Vice Chair, The Invesco Funds; Vice Chair, Investment Company Institute; and Member of Executive Board, SMU Cox School of Business  Formerly: Advisor to the Board, Invesco Advisers, Inc. (formerly known as Invesco Institutional (N.A.), Inc.); Chairman and Chief Executive Officer, Invesco Advisers, Inc. (registered investment adviser); Director, Chairman, Chief Executive Officer and President, Invesco Holding Company (US), Inc. (formerly IVZ Inc.) (holding company), Invesco Group Services, Inc. (service provider) and Invesco North American Holdings, Inc. (holding company); Director, Chief Executive Officer and President, Invesco Holding Company Limited (parent of Invesco and a global investment management firm); Director, Invesco Ltd.; Chairman, Investment Company Institute and President, Co-Chief Executive Officer, Co-President, Chief Operating Officer and Chief Financial Officer, Franklin Resources, Inc. (global investment management organization)	189	None

<sup>1</sup> Mr. Flanagan is considered an interested person (within the meaning of Section 2(a)(19) of the 1940 Act) of the Trust because he is an officer of the Adviser to the Trust, and an officer and a director of Invesco Ltd., ultimate parent of the Adviser.
