

Invesco[®] V.I. S&P 500 Buffer Fund - December

The Fund provides a complete list of its portfolio holdings four times each year, at the end of each fiscal quarter. For the second and fourth quarters, the list appears, respectively, in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the list with the Securities and Exchange Commission (SEC) as an exhibit to its reports on Form N-PORT. The Fund's Form N-PORT filings are available on the SEC website, sec.gov. The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-PORT, have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at invesco.com/corporate/about-us/esg. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 is available at invesco.com/proxysearch. The information is also available on the SEC website, sec.gov.

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.

Management's Discussion of Fund Performance

Market conditions and your Fund

US political unrest and rising coronavirus (COVID-19) infection rates marked the start of the first quarter of 2021. Additionally, retail investors bid up select stocks like GameStop and AMC Theaters, ultimately caused a sharp selloff in late January. Corporate earnings generally beat expectations, but market volatility rose during the quarter as investors worried about rising bond yields and inflation. Despite the US Federal Reserve's (the Fed's) commitment to an accommodative policy, the 10-year US Treasury yield rose from 0.92% at the end of 2020 to 1.75%¹ at the end of March 2021. Approval of a third COVID-19 vaccine boosted investors' optimism for faster economic recovery. Although March saw increased volatility with consecutive down days in the US stock market, stocks continued to hit all-time highs through April 2021.

The US stock market once again hit new highs in the second quarter of 2021, despite higher volatility stemming from inflation concerns and the potential for rising interest rates. Investors remained optimistic about the strength of the economic recovery after the US gross domestic product (GDP) grew at a 6.4% annualized rate for the first quarter of 2021.² Corporate earnings also remained strong as the majority of S&P 500 companies beat Wall Street earnings forecasts. US equity markets continued to move higher in July despite inflation concerns and increasing COVID-19 infection rates due to the rapidly spreading Delta variant. Despite the Consumer Price Index (CPI) increasing in June through September,³ the Fed declined to raise interest rates at its September Federal Open Market Committee (FOMC) meeting. The US stock market saw continued volatility in August and a selloff through most of September due to increasing concerns of inflation due to a spike in oil prices and supply chain shortages causing rising costs.

Equity markets were volatile in the fourth quarter of 2021 amid record inflation and the emergence of a new COVID-19 variant. Pandemic related supply chain disruption and labor shortages intensified during the quarter, resulting in broadly higher input costs for companies and consumers alike. Additionally, the price of oil (West Texas Intermediate) rose to nearly \$85 per barrel in October,¹ causing higher gas prices for consumers and pushing energy stocks higher. The CPI report for November increased 0.8%, resulting in a 6.8% increase over the last 12 months, the highest since 1982.³ To combat inflation, the Fed announced a faster pace of "tapering" at its December meeting, pledging to end its asset purchase program by March 2022. The Fed also announced the potential for three interest rate increases in 2022. With solid corporate earnings and optimism about the COVID-19 Omicron strain reporting milder symptoms, stocks rallied at year-end and the S&P 500 Index returned 28.71%⁴ for the calendar year.

The **Invesco® V.I. S&P 500 Buffer Fund - December** seeks, over a specified annual Outcome Period (an "Outcome Period"), to provide investors with returns that match those of the S&P 500® Index (the "Underlying Index") up to an upside Cap, while providing a buffer against the first 10% (prior to taking into account any fees and expenses of the Fund) of Underlying Index losses.

The Fund's Cap for the current Outcome Period, which represents the maximum percentage return (expressed as a percentage of the value of the Underlying Index determined at the start of the Outcome Period) that can be achieved from an investment in the Fund over the entire Outcome Period (the "Cap"), is 12.20%. This Cap is before considering fees and expenses. A new Cap level for each successive Outcome Period will be determined at the end of the trading day immediately preceding the first day of each new Outcome Period. If the Underlying Index experiences returns over an Outcome Period in excess of the Cap, the Fund, and therefore investors, will not experience those excess gains.

The Fund's initial Outcome Period is twelve months, commencing on January 1, 2022 and ending on the following December 31, 2022.

The Fund's performance history is not presented or discussed here because, as of the date of this annual report, the Fund has not had returns for at least six months. The Fund's performance information is accessible on the Fund's website.

The Fund has characteristics unlike many other traditional investment products and is not appropriate for all investors. In particular, investment in the Fund may not be appropriate for investors who do not intend to maintain their investment through the entire Outcome Period. There is no guarantee that the Fund will be able to achieve the stated Defined Outcomes.

Thank you for your investment in Invesco® V.I. S&P 500 Buffer Fund - December.

Financial Highlights

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

	Net asset value, beginning of period	Net investment income (loss) ^(a)	Net gains (losses) on securities (both realized and unrealized)	Total from investment operations	Net asset value, end of period	Total return ^(b)	Net assets, end of period (000's omitted)	Ratio of expenses to average net assets with fee waivers and/or expenses absorbed	Ratio of expenses to average net assets without fee waivers and/or expenses absorbed	Ratio of net investment income (loss) to average net assets	Portfolio turnover ^(c)
Series I											
Period ended 12/31/21 ^(d)	\$10.00	\$(0.00)	\$-	\$(0.00)	\$10.00	-%	\$1,000	0.70% ^(e)	643.01% ^(e)	(0.70)% ^(e)	0%
Series II											
Period ended 12/31/21 ^(d)	10.00	(0.00)	-	(0.00)	10.00	-	1,000	0.95 ^(e)	643.26 ^(e)	(0.95) ^(e)	0

^(a) Calculated using average shares outstanding.

^(b) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable, and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

^(c) Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable.

^(d) Commencement date of December 31, 2021.

^(e) Annualized.

See accompanying Notes to Financial Statements which are an integral part of the financial statements.

Notes to Financial Statements

December 31, 2021

NOTE 1—Significant Accounting Policies

Invesco® V.I. S&P 500 Buffer Fund - December (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company. Information presented in these financial statements pertains only to the Fund. Matters affecting the Fund or each class will be voted on exclusively by the shareholders of the Fund or each class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund seeks, over a specified annual outcome period, to provide investors with returns that match those of the S&P 500® Index (the "Underlying Index") up to an upside cap, while providing a buffer against the first 10% (prior to taking into account any fees and expenses of the Fund) of Underlying Index losses. The Fund invests, under normal circumstances, at least 80% its net assets (plus any borrowings for investment purposes) in options that reference the S&P 500® Index or options that reference the SPDR® S&P 500® ETF Trust, which is an exchange-traded unit investment trust that seeks to track the S&P 500® Index.

The Fund employs a "Defined Outcome" strategy, which seeks to replicate the performance of the Underlying Index over a designated period of 12 months (the "Outcome Period") up to a predetermined cap (the "Cap"), while providing a buffer against the first 10% of Underlying Index losses over the Outcome Period (the "Buffer"). Following the conclusion of the initial Outcome Period, each subsequent Outcome Period will be a one-year period that begins on the trading day that immediately follows the day that the preceding Outcome Period concluded. New Cap levels will be determined at the end of the trading day immediately preceding the first day of each new Outcome Period and will change depending on market conditions. The buffer for each Outcome Period will be 10%. The Fund's Cap represents the maximum percentage return, expressed as a percentage of the value of the Underlying Index determined at the start of the relevant Outcome Period (the "Underlying Index Start Value"), that can be achieved from an investment in the Fund over an Outcome Period, prior to taking into account any fees and expenses of the Fund. The Fund's Buffer represents the amount of losses, expressed as a percentage of the Underlying Index Start Value, that the Fund will buffer against if the Underlying Index experiences losses over an Outcome Period, prior to taking into account any fees and expenses of the Fund. Underlying Index losses over an Outcome Period that exceed the Buffer will be borne by shareholders.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

A. Security Valuations – Securities, including restricted securities, are valued according to the following policy.

A security listed or traded on an exchange (except convertible securities) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and asked prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and asked prices. For purposes of determining net asset value ("NAV") per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange ("NYSE").

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end-of-day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Debt obligations (including convertible securities) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate (for unlisted equities), yield (for debt obligations), quality, type of issue, coupon rate (for debt obligations), maturity (for debt obligations), individual trading characteristics and other market data. Pricing services generally value debt obligations assuming orderly transactions of institutional round lot size, but a fund may hold or transact in the same securities in smaller, odd lot sizes. Odd lots often trade at lower prices than institutional round lots. Debt obligations are subject to interest rate and credit risks. In addition, all debt obligations involve some risk of default with respect to interest and/or principal payments.

Foreign securities' (including foreign exchange contracts) prices are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange-traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that the investment adviser determines are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current value as of the close of the NYSE. Foreign securities' prices meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or became unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/asked quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

The Fund may invest in securities that are subject to interest rate risk, meaning the risk that the prices will generally fall as interest rates rise and, conversely, the prices will generally rise as interest rates fall. Specific securities differ in their sensitivity to changes in interest rates depending on their individual characteristics. Changes in interest rates may result in increased market volatility, which may affect the value and/or liquidity of certain Fund investments.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general market conditions which are not specifically related to the particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for

revenues or corporate earnings, changes in interest or currency rates, regional or global instability, natural or environmental disasters, widespread disease or other public health issues, war, acts of terrorism or adverse investor sentiment generally and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

- B. Securities Transactions and Investment Income** – Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income (net of withholding tax, if any) is recorded on an accrual basis from settlement date and includes coupon interest and amortization of premium and accretion of discount on debt securities as applicable. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Operations and the Statement of Changes in Net Assets, or the net investment income per share and the ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

- C. Country Determination** – For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.

- D. Distributions** - Distributions from net investment income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.

- E. Federal Income Taxes** - The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained. Management has analyzed the Fund's uncertain tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions. Management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

- F. Expenses** - Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.

- G. Accounting Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.

- H. Indemnifications** - Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.

- I. Flex Options Purchased and Written** - The Fund invests primarily in FLEXible EXchange[®] Options ("FLEX[®] Options"), which are non-standard Options that allow users to negotiate key contract terms, including exercise prices, exercise styles, and expiration dates, on major stock indexes as well as individual equities. Other benefits of FLEX[®] Options, include guarantee for settlement by the Options Clearing Corporation (the "OCC"), a market clearinghouse that guarantees performance by counterparties to certain derivatives contracts and protection from counterparty risk that is associated with Over-the-counter trading.

The Fund will purchase and sell put and call FLEX[®] Options. Put options give the holder (the buyer of the put) the right to sell an asset (or deliver the cash value of the Underlying Index, in case of an index put option) and gives the seller of the put (the writer) of the put the obligation to buy the asset (or receive cash value of the Underlying Index, in case of an index put option) at a certain defined price. Call options give the holder (the buyer of the call) the right to buy an asset (or receive cash value of the Underlying Index, in case of an index call option) and gives the seller of the call (the writer) the obligation to sell the asset (or deliver cash value of the Underlying Index, in case of an index call option) at a certain defined price.

When the Fund purchases an option, an amount equal to the premium paid by the Fund is recorded as an investment and is subsequently adjusted to the current value of the option purchased. If an option expires on the stipulated expiration date or if the Fund enters into a closing sale transaction, a gain or loss is realized. If a call option is exercised, the cost of the security acquired is increased by the premium paid for the call. If a put option is exercised, a gain or loss is realized from the sale of the underlying security, and the proceeds from such sale are decreased by the premium originally paid. Purchased options are non-income producing securities. Options purchased are reported as Investments in unaffiliated securities on the Statement of Assets and Liabilities. Realized and unrealized gains and losses on options purchased are included on Statement of Operations as Net realized gain (loss) from and Change in net unrealized appreciation (depreciation) of Investment securities.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gain from written options. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as the writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Options written are reported as a liability on the Statement of Assets and Liabilities. Realized and

unrealized gains and losses on options written are included on the Statement of Operations as Net realized gain (loss) from and Change in net unrealized appreciation (depreciation) of Option contracts written.

The Fund bears the risk that the OCC could be unable or unwilling to perform its obligations under the FLEX[®] Options contracts, which could cause significant losses. Additionally, FLEX[®] Options may be less liquid than certain other securities such as standardized options. In less liquid markets for the FLEX[®] Options, the Fund may have difficulty closing out certain FLEX[®] Options positions under the customized terms. The Fund may experience substantial downside from specific FLEX[®] Option positions and certain FLEX[®] Option positions may expire worthless. The value of the underlying FLEX[®] Options will be affected by, among others, changes in the value of the exchange, changes in interest rates, changes in the actual and implied volatility of the Underlying Index and the remaining time to until the FLEX[®] Options expire. The value of the FLEX[®] Options does not increase or decrease at the same rate as the level of the Underlying Index (although they generally move in the same direction). However, as a FLEX[®] Option approaches its expiration date, its value typically increasingly moves with the value of the Underlying Index.

- J. Leverage Risk** – Leverage exists when the Fund can lose more than it originally invests because it purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction.
- K. Buffered Loss Risk** - The term "buffer" is a generic term that is widely used in the investment management and financial services industries to describe an investment product or strategy that is designed to mitigate or alleviate downside risk. The Buffer for the Fund is designed to limit downside losses for shares purchased at the beginning and held until the end of the Outcome Period; however, there is no guarantee that the Buffer will effectively protect against all losses. If the Underlying Index declines over an Outcome Period by more than the Buffer, shareholders will bear the amount of the loss in excess of the Buffer at the end of the Outcome Period (plus Fund fees and expenses).
- L. Non-Diversified Risk** - Under the 1940 Act, a fund designated as "diversified" must limit its holdings such that the securities of issuers which individually represent more than 5% of its total assets must in the aggregate represent less than 25% of its total assets. The Fund is classified as "diversified" for purposes of the 1940 Act. However, the Fund may be "non-diversified," as defined in the 1940 Act, solely as a result of a change in relative market capitalization or index weighting of one or more constituents of the Underlying Index. A non-diversified fund can invest a greater portion of its assets in the securities of a small number of issuers or any single issuer than a diversified fund can. In such circumstances, a change in the value of one or a few issuers' securities will therefore affect the value of the Fund more than if it was a diversified fund. As such, the Fund's performance may be hurt disproportionately by the poor performance of relatively few stocks, or even a single stock, and the Fund's shares may experience significant fluctuations in value.
- M. COVID-19 Risk** - The COVID-19 strain of coronavirus has resulted in instances of market closures and dislocations, extreme volatility, liquidity constraints and increased trading costs. Efforts to contain its spread have resulted in travel restrictions, disruptions of healthcare systems, business operations and supply chains, layoffs, lower consumer demand, and defaults, among other significant economic impacts that have disrupted global economic activity across many industries. Such economic impacts may exacerbate other pre-existing political, social and economic risks locally or globally.

The ongoing effects of COVID-19 are unpredictable and may result in significant and prolonged effects on the Fund's performance.

NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund accrues daily and pays monthly an advisory fee to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

Average Daily Net Assets	Rate
First \$2 billion	0.420%
Over \$2 billion	0.400%

For the period December 31, 2021 (commencement date) through December 31, 2021, the effective advisory fee rate incurred by the Fund was 0.42%.

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. and separate sub-advisory agreements with Invesco Capital Management LLC and Invesco Asset Management (India) Private Limited (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Fund, will pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide(s) discretionary investment management services to the Fund based on the percentage of assets allocated to such Affiliated Sub-Adviser(s).

Effective December 31, 2021, the Adviser has contractually agreed, through at least April 30, 2023, to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses after fee waiver and/or expense reimbursement (excluding certain items discussed below) of Series I shares to 0.70% and Series II shares to 0.95% of the Fund's average daily net assets (the "expense limits"). In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waiver and/or expense reimbursement to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Unless Invesco continues the fee waiver agreement, it will terminate on April 30, 2023. During its term, the fee waiver agreement cannot be terminated or amended to increase the expense limits or reduce the advisory fee waiver without approval of the Board of Trustees.

Further, the Adviser has contractually agreed, through at least June 30, 2023, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds.

For the period December 31, 2021 (commencement date) through December 31, 2021, the Adviser waived advisory fees of \$35,196.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for fees paid to insurance companies that have agreed to provide certain administrative services to the Fund. These administrative services provided by the insurance companies may include, among other things: maintenance of master accounts with the Fund; tracking, recording and transmitting net purchase and redemption orders for Fund shares; maintaining and preserving records related to the purchase, redemption and other account activity of variable product owners; distributing copies of Fund documents such as prospectuses, proxy materials and periodic reports, to variable product owners, and responding to inquiries from variable product owners about the Fund. Pursuant to such agreement, for the period December 31, 2021 (commencement date) through December 31, 2021, Invesco was paid \$1 for accounting and fund administrative services and was reimbursed \$8 for fees paid to insurance companies. Invesco has entered into a sub-administration agreement whereby State Street Bank and Trust Company ("SSB") serves as fund accountant and provides certain administrative services to the Fund. Pursuant to a custody agreement with the Trust on behalf of the Fund, SSB also serves as the Fund's custodian.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the period December 31, 2021 (commencement date) through December 31, 2021, expenses incurred under the agreement are shown in the Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Series II shares (the "Plan"). The Fund, pursuant to the Plan, pays IDI compensation at the annual rate of 0.25% of the Fund's average daily net assets of Series II shares. The fees are accrued daily and paid monthly. Of the Plan payments, up to 0.25% of the

average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the period December 31, 2021 (commencement date) through December 31, 2021, expenses incurred under the Plan are detailed in the Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

NOTE 3—Additional Valuation Information

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods, giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3), generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

Level 1 - Prices are determined using quoted prices in an active market for identical assets.

Level 2 - Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.

Level 3 - Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of December 31, 2021. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

	Level 1	Level 2	Level 3	Total
Investments in Securities				
Money Market Funds	\$2,500,025	\$ -	\$-	\$2,500,025
Options Purchased	-	2,025,991	-	2,025,991
Total Investments in Securities	2,500,025	2,025,991	-	4,526,016
Other Investments - Liabilities*				
Options Written	-	(131,291)	-	(131,291)
Total Investments	\$2,500,025	\$1,894,700	\$-	\$4,394,725

* Options written are shown at value.

NOTE 4—Derivative Investments

The Fund may enter into an International Swaps and Derivatives Association Master Agreement ("ISDA Master Agreement") under which a fund may trade OTC derivatives. An OTC transaction entered into under an ISDA Master Agreement typically involves a collateral posting arrangement, payment netting provisions and close-out netting provisions. These netting provisions allow for reduction of credit risk through netting of contractual obligations. The enforceability of the netting provisions of the ISDA Master Agreement depends on the governing law of the ISDA Master Agreement, among other factors.

For financial reporting purposes, the Fund does not offset OTC derivative assets or liabilities that are subject to ISDA Master Agreements in the Statement of Assets and Liabilities.

Value of Derivative Investments at Period-End

The table below summarizes the value of the Fund's derivative investments, detailed by primary risk exposure, held as of December 31, 2021:

	Value Equity Risk
Derivative Assets	
Options purchased, at value ^(a)	\$ 2,025,991
Derivatives not subject to master netting agreements	(2,025,991)
Total Derivative Assets subject to master netting agreements	\$ -
	Value Equity Risk
Derivative Liabilities	
Options written, at value	\$ (131,291)
Derivatives not subject to master netting agreements	131,291
Total Derivative Liabilities subject to master netting agreements	\$ -

^(a) Options purchased, at value as reported in the Schedule of Investments.

The table below summarizes the average notional value of derivatives held for the period December 31, 2021 (commencement date) through December 31, 2021.

	Equity Options Purchased	Index Options Purchased	Equity Options Written	Index Options Written
Average notional value	\$538,131	\$1,472,751	\$1,056,407	\$2,891,163
Average contracts	22	6	22	6

NOTE 5—Trustees' and Officers' Fees and Benefits

Trustees' and Officers' Fees and Benefits include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and *Trustees' and Officers' Fees and Benefits* also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Obligations under the deferred compensation plan represent unsecured claims against the general assets of the Fund.

NOTE 6—Cash Balances

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with SSB, the custodian bank. Such balances, if any at period-end, are shown in the Statement of Assets and Liabilities under the payable caption Amount due custodian. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate. The Fund may not purchase additional securities when any borrowings from banks or broker-dealers exceed 5% of the Fund's total assets, or when any borrowings from an Invesco Fund are outstanding.

NOTE 7—Distributions to Shareholders and Tax Components of Net Assets

There were no ordinary income or long-term capital gain distributions paid during the period December 31, 2021 (commencement date) through December 31, 2021.

Tax Components of Net Assets at Period-End:

	2021
Shares of beneficial interest	1,999,955
Total net assets	\$1,999,955

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund does not have a capital loss carryforward as of December 31, 2021.

NOTE 8—Investment Transactions

There were no securities (other than short-term securities, U.S. Government obligations and money market funds, if any) purchased or sold by the Fund during the period December 31, 2021 (commencement date) through December 31, 2021. Cost of investments, including any derivatives, on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

Unrealized Appreciation (Depreciation) of Investments on a Tax Basis

Aggregate unrealized appreciation of investments	\$-
Aggregate unrealized (depreciation) of investments	-
Net unrealized appreciation (depreciation) of investments	\$-

Cost of investments for tax purposes is the same as the cost for financial reporting purposes.

NOTE 9—Reclassification of Permanent Differences

Primarily as a result of differing book/tax treatment of organizational expenses, on December 31, 2021, undistributed net investment income (loss) was increased by \$45 and shares of beneficial interest was decreased by \$45. This reclassification had no effect on the net assets of the Fund.

NOTE 10—Share Information

	Summary of Share Activity	
	December 31, 2021 ^{(a)(b)}	
	Shares	Amount
Sold:		
Series I	100,001	\$1,000,010
Series II	100,001	1,000,010
Reacquired:		
Series I	(1)	(10)
Series II	(1)	(10)
Net increase in share activity	200,000	\$2,000,000

^(a) Commencement date of December 31, 2021.

^(b) 100% of the outstanding shares of the Fund are owned by the Adviser or an affiliate of the Adviser.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) and Shareholders of Invesco® V.I. S&P 500 Buffer Fund - December

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Invesco® V.I. S&P 500 Buffer Fund - December (one of the funds constituting AIM Variable Insurance Funds (Invesco Variable Insurance Funds), referred to hereafter as the "Fund") as of December 31, 2021, the related statements of operations and changes in net assets, including the related notes, and the financial highlights for the period December 31, 2021 (commencement date) through December 31, 2021 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2021, the results of its operations, the changes in its net assets, and the financial highlights for the period December 31, 2021 (commencement date) through December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2021 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audit provides a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP

Houston, Texas
February 14, 2022

We have served as the auditor of one or more of the investment companies in the Invesco group of investment companies since at least 1995. We have not been able to determine the specific year we began serving as auditor.

Calculating your ongoing Fund expenses

Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period December 31, 2021 (commencement date) through December 31, 2021.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

Actual expenses

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period (December 31, 2021 (commencement date) through December 31, 2021). Because the actual ending account value and expense information in the example is not based upon a six month period, the ending account value and expense information may not provide a meaningful comparison to mutual funds that provide such information for a full six month period.

Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value (07/01/21)	ACTUAL		HYPOTHETICAL (5% annual return before expenses)		Annualized Expense Ratio ²
		Ending Account Value (12/31/21) ¹	Expenses Paid During Period ²	Ending Account Value (12/31/21)	Expenses Paid During Period ³	
Series I	\$1,000.00	\$1,000.00	\$0.02	\$1,021.68	\$3.57	0.70%
Series II	1,000.00	1,000.00	0.03	1,020.42	4.84	0.95

¹ The actual ending account value is based on the actual total return of the Fund for the period December 31, 2021 (commencement date) through December 31, 2021, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

² Actual expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 1 (as of close of business December 31, 2021 (commencement date) through December 31, 2021)/365. Because the Fund has not been in existence for a full six month period, the actual ending account value and expense information shown may not provide a meaningful comparison to fund expense information of classes that show such data for a full six month period and, because the actual ending account value and expense information in the expense example covers a short time period, return and expense data may not be indicative of return and expense data for longer time periods.

³ Hypothetical expenses are equal to the annualized expense ratio indicated above multiplied by the average account value over the period, multiplied by 184/365 to reflect a one-half year period. The hypothetical ending account value and expenses may be used to compare ongoing costs of investing in the Fund and other funds because such data is based on a full six month period.

Approval of Investment Advisory and Sub-Advisory Contracts

Invesco V.I. S&P 500 Defined Outcome Funds and Invesco V.I. Nasdaq 100 Defined Outcome Fund (collectively, the Funds)

At a meeting held on August 2, 2021, the Board of Trustees (the Board or the Trustees) of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) as a whole, and the independent Trustees, who comprise over 75% of the Board, voting separately, approved each Fund's Master Investment Advisory Agreement with Invesco Advisers, Inc. (Invesco Advisers and the investment advisory agreement) and the Master Intergroup Sub-Advisory Contract for Mutual Funds with Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. and separate sub-advisory contracts with Invesco Capital Management LLC and Invesco Asset Management (India) Private Limited (collectively, the Affiliated Sub-Advisers and the sub-advisory contracts), effective September 30, 2021.

The Board noted that it had previously approved establishing each Fund at a Board meeting held on June 10, 2021.

In doing so, the Board followed a process similar to the process that it follows in annually reviewing and approving investment advisory agreements and sub-advisory contracts for the series portfolios of registered investment companies advised by Invesco Advisers (the Invesco Funds) and considered the information provided in the most recent annual review process, as well as the information provided with respect to the Funds. After evaluating the factors discussed below, among others, the Board: (i) approved the investment advisory agreement and the sub-advisory contracts for each Fund and determined that the compensation payable thereunder by the Fund to Invesco Advisers and by Invesco Advisers to the Affiliated Sub-Advisers is fair and reasonable and (ii) approved submission of the agreements to the initial shareholder of each Fund.

The Board's Evaluation Process

The Board's Investments Committee has established Sub-Committees, which meet throughout the year to review the performance of the Invesco Funds. The Funds will be assigned to one of the Sub-Committees. The Sub-Committees meet regularly with portfolio managers for their assigned Invesco Funds and other members of management to review detailed information about investment performance and portfolio attributes of these funds.

In evaluating the fairness and reasonableness of compensation under each Fund's investment advisory agreement and sub-advisory contracts, the Board considered, among other things, the factors discussed below. The Board was assisted in its review by the Senior Officer, an officer of the Invesco Funds who reports directly to the independent Trustees, and by independent legal counsel. The discussion below serves as a summary of the material factors and related conclusions that formed the basis for the Board's approval of each Fund's investment advisory agreement and sub-advisory contracts. The Trustees' review and conclusions are based on the comprehensive consideration of all information presented to them and are not the result of any single

determinative factor. Moreover, one Trustee may have weighed a particular piece of information or factor differently than another Trustee.

The discussion below is a summary of the material factors and related conclusions that formed the basis for the Board's approval of each Fund's investment advisory agreement and sub-advisory contracts. This information is current as of August 2, 2021.

Factors and Conclusions and Summary of Independent Written Fee Evaluation

A. Nature, Extent and Quality of Services Provided by Invesco Advisers and the Affiliated Sub-Advisers

The Board reviewed the nature, extent and quality of the advisory services to be provided to each Fund by Invesco Advisers under the Fund's investment advisory agreement, and the credentials and experience of the officers and employees of Invesco Advisers who will provide these services, including the Fund's portfolio managers. The Board's review included consideration of Invesco Advisers' investment process oversight and structure, investment risk management and research capabilities. The Board also considered non-advisory services that Invesco Advisers and its affiliates provide to the Invesco Funds and will provide to each Fund, such as various back office support functions, third party service provider oversight, internal audit, valuation, portfolio trading and legal and compliance. The Board also received and reviewed information about Invesco Advisers' role as administrator of the Invesco Funds' liquidity risk management program. The Board reviewed and considered the benefits to shareholders of investing in a Fund that is part of the Invesco family of funds under the umbrella of Invesco Ltd., Invesco Advisers' parent company, and noted Invesco Ltd.'s depth and experience in conducting an investment management business, as well as its commitment of financial and other resources to such business. The Board concluded that the nature, extent and quality of the services to be provided to each Fund by Invesco Advisers are appropriate and satisfactory.

The Board reviewed the services that may be provided to each Fund by the Affiliated Sub-Advisers under the sub-advisory contracts and the credentials and experience of the officers and employees of the Affiliated Sub-Advisers who provide these services. The Board noted the Affiliated Sub-Advisers' expertise with respect to certain asset classes and that the Affiliated Sub-Advisers have offices and personnel that are located in financial centers around the world. As a result, the Board noted that the Affiliated Sub-Advisers can provide research and investment analysis on the markets and economies of various countries in which each Fund may invest, make recommendations regarding securities and assist with security trades. In particular, the Board noted that Invesco Asset Management Limited will assist Invesco Advisers with each Fund's day-to-day portfolio management. The Board concluded that the sub-advisory contracts will benefit each Fund and its shareholders by permitting Invesco Advisers to use the resources and talents of the Affiliated Sub-Advisers in managing the Fund. The Board concluded that the nature, extent and quality of the services that may be provided by the Affiliated Sub-Advisers are appropriate and satisfactory.

B. Fund Investment Performance

The Board did not consider the performance of any Fund because the Funds are new and have no performance history. The Board did review performance expectations for each Fund as well as information provided regarding the experience of the portfolio managers in managing products with derivatives-based strategies. The Board noted that Invesco Asset Management Limited, an Affiliated Sub-Adviser, will assist Invesco Advisers with each Fund's day-to-day portfolio management.

C. Advisory and Sub-Advisory Fees and Fund Expenses

The Board considered the proposed advisory fee schedule of each Fund and the proposed fee waivers and expense limitations. The Board also considered the services that may be provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts and the services to be provided by Invesco Advisers pursuant to each Fund's investment advisory agreement, as well as the allocation of fees between Invesco Advisers and the Affiliated Sub-Advisers pursuant to the sub-advisory contracts. The Board noted that the sub-advisory fees are not paid directly by each Fund, but rather, are payable by Invesco Advisers to the Affiliated Sub-Advisers (as applicable).

The Board also considered comparative advisory fee data provided by Invesco Advisers with respect to comparable registered funds managed by other advisers. The Board noted that Invesco Advisers currently does not manage other mutual funds with investment strategies similar to those of the Funds. The Board noted that each Fund's advisory fee is below the Morningstar "Options Trading" category median and average, and less than the advisory fees associated with other VIT "defined outcome" funds. The Board also considered comparative information regarding each Fund's total expense ratio and its various components.

The Board noted that Invesco Advisers will contractually agree to waive fees and/or limit expenses of each Fund through at least April 30, 2023 (or, for the two "June" vintages of the Funds, through at least June 30, 2023) in an amount necessary to limit total annual operating expenses to a specified percentage of average daily net assets of Series I and Series II shares of the Fund. The Board noted that Invesco Advisers will contractually agree to waive advisory fees of each Fund relating to certain investments by the Fund in affiliated money market funds through June 30, 2023.

The Board also considered the services that may be provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts, as well as the fees payable by Invesco Advisers to the Affiliated Sub-Advisers pursuant to the sub-advisory contracts (as applicable). The Board noted that Invesco Advisers retains overall responsibility for, and provides services to, sub-advised Invesco Funds, including oversight of the Affiliated Sub-Advisers as well as the additional services described herein.

D. Economies of Scale and Breakpoints

The Board considered the extent to which there may be economies of scale in the provision of advisory services to each Fund. The Board also considered that each Fund may benefit from economies of scale through contractual breakpoints in the Fund's advisory fee schedule, which generally operate to

reduce the Fund's expense ratio as it grows in size. The Board noted that each Fund will share directly in economies of scale through lower fees charged by third party service providers based on the combined size of the Invesco Funds. The Board noted that each Fund may also benefit from economies of scale through initial fee setting, fee waivers and expense reimbursements. The Board also considered Invesco's reinvestment in its business, including investments in business infrastructure, technology and cybersecurity.

E. Profitability and Financial Resources

The Board reviewed information from Invesco Advisers concerning the costs of the advisory and other services that Invesco Advisers and its affiliates will provide to each Fund and the Invesco Funds and the profitability of Invesco Advisers and its affiliates in providing these services in the aggregate and on an individual fund-by-fund basis. The Board considered the methodology used for calculating profitability and noted the periodic review and enhancement of such methodology. The Board noted that Invesco Advisers will continue to operate at a net profit from services Invesco Advisers and its affiliates provide to the Invesco Funds in the aggregate and to certain funds on an individual fund level. The Board did not deem the level of profits realized by Invesco Advisers and its affiliates from providing such services to be excessive given the nature, extent and quality of the services provided. The Board received information from Invesco Advisers demonstrating that Invesco Advisers and the Affiliated Sub-Advisers are financially sound and have the resources necessary to perform their obligations under each Fund's investment advisory agreement and sub-advisory contracts.

F. Collateral Benefits to Invesco Advisers and its Affiliates

The Board considered various other benefits to be received by Invesco Advisers and its affiliates from the relationship with each Fund, including the fees to be received for providing administrative, transfer agency and distribution services to the Fund. The Board considered the performance of Invesco Advisers and its affiliates in providing these services and the organizational structure employed to provide these services. The Board also considered that these services will be provided to each Fund pursuant to written contracts that are reviewed and approved on an annual basis by the Board; and that the services are required for the operation of each Fund.

The Board considered the benefits realized by Invesco Advisers and the Affiliated Sub-Advisers as a result of portfolio brokerage transactions executed through "soft dollar" arrangements. The Board noted that soft dollar arrangements may result in each Fund bearing costs to purchase research or brokerage services that may be used by Invesco Advisers or the Affiliated Sub-Advisers with other clients and may reduce Invesco Advisers' or the Affiliated Sub-Advisers' expenses. The Board also considered that it will receive periodic reports from Invesco Advisers representing that these arrangements are consistent with regulatory requirements. The Board did not deem the soft dollar arrangements to be inappropriate.

The Board considered that each Fund's uninvested cash and cash collateral from any securities lending arrangements may be invested in registered money market funds or, with regard to securities lending cash collateral, unregistered funds that comply with Rule 2a-7 under the Investment Company Act of

1940, as amended (collectively referred to as "affiliated money market funds"), advised by Invesco Advisers pursuant to procedures approved by the Board. The Board noted that Invesco Advisers receives advisory fees from these affiliated money market funds attributable to such investments, although Invesco Advisers has contractually agreed to waive through varying periods the advisory fees payable by the Invesco Funds with respect to certain investments in the affiliated money market funds. The waiver is in an amount equal to 100% of the net advisory fee Invesco Advisers receives from the affiliated money market funds with respect to each Fund's investment in the affiliated money market funds of uninvested cash, but not cash collateral. The Board concluded that the amount of advisory fees to be received by Invesco Advisers from each Fund's investment of cash collateral from any securities lending arrangements in the affiliated money market funds is fair and reasonable.

The Board also considered that an affiliated broker may receive commissions for executing certain trades for each Fund. Invesco Advisers and the Affiliated Sub-Advisers may use the affiliated broker to, among other things, control order routing and minimize information leakage, and the Board was advised that such trades are executed in compliance with rules under the federal securities laws and consistent with best execution obligations.

Tax Information

Form 1099-DIV, Form 1042-S and other year-end tax information provide shareholders with actual calendar year amounts that should be included in their tax returns. Shareholders should consult their tax advisers.

The following distribution information is being provided as required by the Internal Revenue Code or to meet a specific state's requirement.

The Fund designates the following amounts or, if subsequently determined to be different, the maximum amount allowable for the period December 31, 2021 (commencement date) through December 31, 2021:

Federal and State Income Tax

Qualified Dividend Income*	0.00%
Corporate Dividends Received Deduction*	0.00%
U.S. Treasury Obligations*	0.00%
Qualified Business Income*	0.00%
Business Interest Income*	0.00%

* The above percentages are based on ordinary income dividends paid to shareholders for the period December 31, 2021 (commencement date) through December 31, 2021.

Trustees and Officers

The address of each trustee and officer is AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"), 11 Greenway Plaza, Suite 1000, Houston, Texas 77046-1173. The trustees serve for the life of the Trust, subject to their earlier death, incapacitation, resignation, retirement or removal as more specifically provided in the Trust's organizational documents. Each officer serves for a one year term or until their successors are elected and qualified. Column two below includes length of time served with predecessor entities, if any.

Name, Year of Birth and Position(s) Held with the Trust	Trustee and/or Officer Since	Principal Occupation(s) During Past 5 Years	Number of Funds in Fund Complex Overseen by Trustee	Other Directorship(s) Held by Trustee During Past 5 Years
Interested Trustee				
Martin L. Flanagan ¹ – 1960 Trustee and Vice Chair	2007	Executive Director, Chief Executive Officer and President, Invesco Ltd. (ultimate parent of Invesco and a global investment management firm); Trustee and Vice Chair, The Invesco Funds; Vice Chair, Investment Company Institute; and Member of Executive Board, SMU Cox School of Business Formerly: Advisor to the Board, Invesco Advisers, Inc. (formerly known as Invesco Institutional (N.A.), Inc.); Chairman and Chief Executive Officer, Invesco Advisers, Inc. (registered investment adviser); Director, Chairman, Chief Executive Officer and President, Invesco Holding Company (US), Inc. (formerly IVZ Inc.) (holding company), Invesco Group Services, Inc. (service provider) and Invesco North American Holdings, Inc. (holding company); Director, Chief Executive Officer and President, Invesco Holding Company Limited (parent of Invesco and a global investment management firm); Director, Invesco Ltd.; Chairman, Investment Company Institute and President, Co-Chief Executive Officer, Co-President, Chief Operating Officer and Chief Financial Officer, Franklin Resources, Inc. (global investment management organization)	186	None

¹ Mr. Flanagan is considered an interested person (within the meaning of Section 2(a)(19) of the 1940 Act) of the Trust because he is an officer of the Adviser to the Trust, and an officer and a director of Invesco Ltd., ultimate parent of the Adviser.
