A GUARANTEED INCOME SOLUTION FOR  
PLAN SPONSORS AND THEIR PARTICIPANTS

# WHAT'S A QLAC?

A Qualifying Longevity Annuity Contract (QLAC) is a deferred annuity funded with money from a qualified retirement plan or IRA.

A financially secure retirement is a good thing, and a Qualifying Longevity Annuity Contract (QLAC) can help retirees have confidence they won't outlive their savings. A QLAC is named by the IRS and is a lifetime-income option that becomes payable later in retirement, generally between ages 80 to 85. Purchased at retirement, this option provides a source of income payable monthly once the starting age is reached.

ISSUE AGES

55-75

PURCHASE PAYMENTS

\$10,000 - \$210,000

- A QLAC provides guaranteed monthly payments so retirees won't outlive their savings. Payments can begin as late as age 85.
- Cash refund, return of premium, and inflation protection available.
- Single life, joint life, and survivor death-benefit options.

And with the passage of the SECURE Act 2.0, QLACs have additional benefits, such as higher investment limits, now up from \$135,000 to \$210,000.

In order for the contract to be eligible as a QLAC, certain requirements under Treasury regulations must be met, including limits on the total amount of purchase payments that can be made to the contract. Qualifying contracts, including traditional IRAs, Roth IRAs, and QLACs, are eligible for favorable tax treatment under the Internal Revenue Code (IRC). Certain payout options and features may not comply with various requirements for Qualifying contracts, which include required minimum distributions. Therefore, certain product features, including the ability to change the annuity payment start date, accelerate payments, and to exercise withdrawal features or payout options, may not be available or may have additional restrictions.
