# **DYNAMIC BILLING**

Pacific Life's new approach to traditional billing problems will eliminate ongoing reconciliation and the need for employers to pay coverage premiums in advance.

O Invoices update throughout the month, based on life event adjustments, and finalize after the last payroll cycle of the month.

• With an integrated connection, the final invoice reflects an accurate, updated bill based on the most current records in the employer's ben admin platform.

# **EVENT-BASED CLAIMS**

Our new, innovative process simplifies the overall claims experience, maximizing benefit payments for employees and their covered dependents.

#### How it works:

- When an event occurs like an injury, diagnosis, treatment, or loss of life – they tell us what happened.
- **2.** Pacific Life evaluates the submission and automatically generates claims on all related coverages.
- **3.** Employees receive prompt and direct benefits payments.

# Product Highlights (Flexible plan options available.)
